E-Cubed Achieves SOC II Type Compliance, Reinforcing Data Security Excellence

June 23, 2025

June 23, 2025 -
E-Cubed Media is excited to announce that it has once again achieved SOC II Type II compliance, marking the third year in a row. This achievement shows the company's strong focus on the highest standards of data security and information management. Known for its work as a digital agency, E-Cubed Media is committed to ensuring the security and privacy of its clients' data, solidifying its role in the web development world. This recognition reflects the careful steps and processes E-Cubed follows to protect customer information in all its projects. More details about their comprehensive services, including WordPress development and Kentico development, can be found on their website.

Steve Widen, the President of E-Cubed Media, shared, "Securing our clients' data is a top priority for us, and achieving SOC II Type II compliance for the third year running demonstrates our commitment to this objective. Our clients trust us with their information, and this trust is the backbone of our business. By ensuring rigorous compliance, we protect the integrity and confidentiality of the data they entrust to us."

SOC II Type II compliance is an important benchmark in data security. It doesn't just assess a company's systems; it reviews how those systems are managed over time. This means E-Cubed Media not only reaches

these standards once but sticks to them, proving its reliability over the long haul.

E-Cubed Media offers a broad range of services, including WordPress and Kentico development. Their implementation skills mean they can give clients exactly what they need. These platforms are used to create strong and adaptable websites that cater to different business needs. By providing ongoing maintenance and updates, E-Cubed Media keeps these sites secure and running smoothly.

The company also emphasizes transparency and open communication through a constantly updated portfolio and blog, which can be accessed on their website. These resources showcase the successful strategies E-Cubed implements in various industries, cementing its reputation for delivering personalized digital solutions.

E-Cubed's focus on user experience is evident in its specialization and NN/g certification in Interaction Design. This dedication to user-centered design helps businesses meet their strategic goals while enhancing how users engage and interact with their platforms. E-Cubed Media ensures businesses can connect with clients more effectively through improved digital experiences.

Major clients like Arc Resources, Black Diamond Group, and the Town of Oakville have partnered with E-Cubed Media, benefitting from the firm's commitment to security through SOC II Type II compliance. This compliance builds trust by giving clients peace of mind regarding their data's protection.

Andrew McNaughton, Director of Technology at E-Cubed Media, commented, "Maintaining high standards of data protection aligns with our core mission to deliver reliable and secure digital solutions. Our clients know that they are partnering with a company that prioritizes their privacy and maintains compliance with stringent industry standards. It significantly boosts the trust they place in us and our capabilities."

In a world where data breaches and security threats are genuine concerns, E-Cubed Media's continued SOC II Type II compliance showcases its operational strength. It shows their proactive approach in managing and anticipating the risks of handling sensitive information, enhancing their credibility and reliability in web development.

For more details on E-Cubed Media's values and operational standards, including information on their services and clients, visit their official About Us page at https://www.e-cubed.com/about-us/. This page is a detailed resource for understanding how E-Cubed contributes to digital media, data security, and UX development.

E-Cubed Media is setting new standards in the industry with its constant innovation, focus on user-centered strategies, and firm commitment to data protection. Their ongoing achievement of SOC II Type II compliance marks another step towards excellence, assuring clients that their digital projects are managed with skill and care.
