

Zurich's Gegenschatz Partner AG AG: Expert Criminal Defense Lawyer Team Revolutionizes Legal Consultation Services

July 22, 2025

Zurich, ZH - July 22, 2025 -
Gegenschatz Partner AG, a well-known law firm based in Zurich, is introducing a new way to handle legal consultations for their clients. This move highlights their dedication to providing effective and accessible legal services in family law, criminal defense, and mediation. With their expertise, the firm helps clients navigate complex legal situations, aiming for fair and just results.

The firm's services cover a wide range of scenarios. If you're dealing with family issues like separation or child-related disputes, you can count on their family law expertise. Their skilled attorneys guide clients through the tricky world of legal family matters, providing support during challenging life changes. They work hard to make sure all rights are protected and fair outcomes are reached.

On the criminal law side, Gegenschatz Partner AG offers representation to individuals accused of crimes. They play an important role in ensuring their clients' legal rights are firmly protected throughout the legal

process. They also commit to helping crime victims by offering needed legal support and connecting them with resources to manage their specific situations effectively.

For those who prefer to settle disputes without going to court, the firm offers mediation services. This approach lets conflicts be resolved through mutual agreement, aiming for a binding resolution that respects everyone's interests. Mediation is particularly useful when preserving relationships is important or when a more friendly resolution process is desired.

To make legal advice more accessible, the firm has started a special service every Friday, offering legal consultations by the hour at a reduced rate. This initiative is designed to make legal advice more reachable for individuals who might need guidance but are wary of long legal engagements. These sessions cost CHF 220.00 per hour, allowing clients to get customized legal support without a huge financial commitment.

They also offer comprehensive first consultations to potential clients, charging CHF 300 for these sessions. The goal is to help clients understand the legal path they might take, providing a clear picture of the steps involved and the outcomes they might expect. This initial meeting helps set a transparent foundation for any future legal processes.

For more information or specific questions, Gegenschatz Partner AG can be reached by phone or email. They are also active on LinkedIn, where they share insights and additional information about their practice areas and services. Interested parties can find more about their practice areas on their official website.

Gegenschatz Partner AG's specialization is a standout feature. Unlike other firms that handle many types of legal issues, they focus solely on family law, criminal law, and mediation. This allows their attorneys to be deeply knowledgeable and effective in their fields, providing clients with solid representation backed by years of experience and strategic insight.

Their commitment to community engagement and accessibility is shown through the use of online platforms like Google Maps to help potential clients find their office. A helpful link like https://maps.app.goo.gl/JCE13PM3vUt1Vgfc6 makes it easier for clients to locate and connect with the firm's services in central Zurich.

Gegenschatz Partner AG's dedication to maintaining high standards of legal representation while ensuring accessibility and transparency sets them apart. As they continue to serve the Zurich community, their approach combines professionalism with compassion. They address the complexities of family and criminal law with clarity and precision. By focusing on empowering their clients through education and personalized

representation, they are strong allies, supporting individuals through some of life's toughest challenges.
