

Bounce World Nola Expands with New Bounce House Rentals and Event Innovations in Greater New Orleans

July 18, 2025

Kenner, LA - July 18, 2025 -

Bounce World Nola recently expanded its services, further establishing itself as a leading provider of party equipment rentals in the Greater New Orleans area. Situated in Kenner, Louisiana, and with over 25 years in the business, Bounce World Nola has built a reputation for reliable service and a wide selection of party rentals. Featuring over 150 state-inspected inflatables and equipment, they are now offering new attractions for local events. Those interested in their offerings can explore the wide range of services available on their website.

The company has enhanced its services with new features like water slides perfect for the southern heat, themed bounce houses, and interactive games such as mobile axe throwing and nine-hole mini-golf. Each piece of equipment is thoroughly cleaned and inspected using a digital system that provides real-time updates on their condition. This practice reinforces their commitment to safety and reliability.

Roy Lambert, CEO of Bounce World Nola, highlights the importance of trust and safety. "At Bounce World

Nola, safety and customer satisfaction are our top priorities," Lambert says. "Our new inspection process offers our clients peace of mind, knowing that our equipment is not only fun but maintained to the highest standards."

In addition to inflatable rentals, Bounce World Nola Party rentals caters to various events such as school fairs, college events, graduation/prom parties, summer camps, and corporate events, details about which can be found at their website.

Beyond inflatables, Bounce World Nola has introduced a range of event essentials. This includes a newly launched tent division suited for both small gatherings and large events, customizable seating options, and gourmet concession stands featuring specialty cotton candy and custom popcorn bars.

The company has also stepped up its service model by offering professional event management, ensuring seamless coordination from planning to execution. Their services cover everything from securing permits to managing logistics and providing specialized setups like capacity control for larger events, making planning easier for hosts.

Industry insiders appreciate these enhancements. An event coordinator commented, "The support and attention to detail from Bounce World Nola make them invaluable for successful events. Their equipment and service adaptation are unmatched in the region."

Bounce World Nola operates across areas such as Jefferson, Orleans, and St. Charles, promising reliable delivery. The company uses advanced dispatch systems to optimize routes and guarantee timely service, no matter the weather or traffic.

To make things even easier, Bounce World Nola has revamped its digital presence. The upgraded website is mobile-friendly and offers live availability and pricing information, simplifying the booking process. The site also addresses common questions about equipment and setups.

Remaining connected to the community, Bounce World Nola dedicates a portion of profits to local charitable causes and hosts events for places like the New Orleans Women and Children's Shelter. Lambert adds, "We believe in giving back to the community that has supported us for over two decades. Through financial contributions or offering services to community events, we are committed to our role."

Looking ahead, Bounce World Nola plans to introduce thematic décor packages and focus on energy-efficient solutions. These planned innovations are intended to enhance both the aesthetics and environmental sustainability of events, in line with Bounce World Nola's goal of maintaining leadership in the local market.

For more information about Bounce World Nola Party Rentals or to use their services, residents can visit their updated website or reach out via phone or social media. By continuing to innovate, Bounce World Nola remains dedicated to providing exceptional service and creating memorable events for their clients.
