## C.Savva Cyprus LTD Enhances Advisory Services for International Crypto Investors Seeking Tax Efficiency in Cyprus

July 10, 2025

Nicosia, CY - July 10, 2025 - PRESSADVANTAGE -

LIMASSOL, Cyprus ? July 11, 2025 ? C.Savva Cyprus LTD, a premier corporate and financial services firm, today announced a significant enhancement of its specialized advisory services designed for international investors, with a particular focus on individuals and corporations from Germany and other key jurisdictions holding substantial crypto-based wealth. The firm has refined its offerings to provide a more integrated and streamlined pathway for clients to leverage Cyprus's advantageous tax and regulatory environment, responding to a growing global demand for clear and stable wealth management solutions in the digital asset sector.

As the international regulatory landscape for cryptocurrencies continues to evolve, investors in jurisdictions with high tax rates on capital gains are increasingly seeking compliant, transparent, and tax-efficient alternatives. Cyprus has steadily solidified its position as a leading European destination for this purpose, offering a unique combination of EU membership, a robust legal system, and a highly favorable tax framework for qualifying individuals and corporations. C.Savva Cyprus LTD?s newly enhanced service suite is tailored to navigate this complex environment, providing end-to-end support for clients looking to establish

a legitimate and substantive presence on the island.

A cornerstone of the firm?s enhanced offerings is its comprehensive guidance on establishing personal tax residency in Cyprus through the "non-domicile" regime. This program allows foreign nationals to become Cyprus tax residents by spending as few as 60 days in the country within a calendar year, provided they do not reside in any other single country for more than 180 days and meet other specific criteria. The enhancement of this service involves a more holistic approach, where C.Savva Cyprus LTD manages the entire lifecycle of the process. This includes not only the initial application but also the creation of a robust AML/KYC file for opening banking relationships, facilitating local investments, and ensuring all ongoing compliance obligations are seamlessly met. For crypto investors, the benefits of this status are profound, as it allows for the declaration of worldwide dividends, interest, and, crucially, gains from the disposal of securities, which can include digital assets, with no liability to Cyprus tax.

Recognizing the unique challenges faced by individuals whose wealth is primarily held in digital assets, the firm has also expanded its personal tax services to address these specific needs. The enhanced service includes specialized assistance in documenting the source of wealth for crypto holdings, navigating the complexities of opening bank accounts for fiat off-ramping, and structuring investments within Europe in a fully compliant manner. This specialized focus provides a level of clarity and security that is essential for long-term wealth preservation.

Mr. Christos Savva, Director of C.Savva Cyprus LTD, commented on the development, stating, ?The digital asset space has created a new paradigm for international investors. With this innovation comes a need for stability, clarity, and intelligent structuring. Our clients, particularly from regions like Germany, are not seeking loopholes; they are seeking a legitimate, transparent, and stable European base where they can manage and grow their assets with confidence. The enhancements to our services are a direct response to this need. We have bolstered our ability to provide a comprehensive, 360-degree solution that goes beyond simple tax residency. By integrating corporate structuring, residency solutions, and sophisticated asset protection strategies like the Cyprus International Trust, we provide a durable framework that supports our clients' long-term financial goals in a fully compliant and substantive manner.?

For corporate clients, C.Savva Cyprus LTD has improved its services related to the establishment of Cyprus trading companies. The firm now offers a more in-depth advisory on achieving the appropriate level of substance?including office presence, staffing, and local management?which is critical for securing the island's low 12.5% corporate income tax rate, one of the most competitive in the European Union. This is particularly relevant for crypto trading entities, crypto-staking operations, and other digital asset businesses that require a legitimate and low-tax onshore base for their global operations.

Further enhancements include more specialized support for the creation of Cyprus-regulated private

investment funds. As Cyprus grows as a regional hub for investment funds and fund managers, C.Savva

Cyprus LTD is now better equipped to guide clients through the process of launching crypto-focused funds,

leveraging the country?s modern and competitive legislative regime. The firm also offers integrated solutions

for asset protection and succession planning through the highly respected Cyprus International Trusts

regime, a powerful tool for safeguarding assets for future generations. For those seeking a deeper connection

to Europe, the firm continues to provide seamless facilitation for Cyprus and Greek Permanent Residency

programs as well as pathways to European citizenship, presenting a complete package for international

mobility and financial security.

About C.Savva Cyprus LTD: C.Savva Cyprus LTD is a leading provider of corporate, tax, and advisory

services based in Limassol, Cyprus. The firm specializes in assisting international clients, from high-net-worth

individuals to multinational corporations, in navigating the Cypriot legal and financial landscape. With a focus
