

JJRM Flooring Expands to Crayford - Discover Premium Solutions for Homes and Businesses

July 25, 2025

LONDON, UK - July 25, 2025 -
JJRM Flooring Ltd, a well-known floor fitting company in London, has announced they're expanding their services to the Crayford area. This addition is part of their ongoing effort to bring high-quality flooring options to homes and businesses across the UK. The company offers a wide range of services, including luxury vinyl, laminate, engineered, and solid wood flooring. They also provide carpet, commercial safety flooring, wooden floor restoration, carpet whipping and binding, plus extensive floor repair services.

Riedwan Khan, speaking for JJRM Flooring Ltd, explained their growth plan. "We're excited to extend our premium flooring services to the Crayford community. Our aim is to provide residents and businesses with top-tier flooring options that enhance their spaces while ensuring longevity and functionality."

Luxury vinyl flooring is a standout offering for JJRM Flooring, drawing customers with its choice of designs, toughness, and low upkeep. It's a flexible option that's especially appealing to those seeking a stylish yet practical choice for homes and businesses. This option is affordable and durable, even more so with advice on subfloor needs and heavy load handling.

Laminate flooring is another popular option for those wanting a budget-friendly yet durable flooring solution. It's resistant to water, scratches, and dents, making it perfect for busy areas. Likewise, engineered flooring offers a strong alternative to real wood, combining aesthetics and durability at a lower cost.

The company also specializes in solid wood flooring, celebrating the timeless beauty of real wood for those who love a natural look. Their expert team advises on proper installation and maintenance to keep the floor looking its best.

Commercial safety flooring is another key service. It's designed for environments where safety is critical, offering slip-resistant solutions for various business settings to help maintain safer workplaces.

JJRM Flooring's skills also cover wooden floor restoration, using professional equipment to revitalize both real wood and engineered floors. This involves sanding, polishing, and lacquering to bring back the floor's original appearance.

Their carpet whipping and binding service gives new life to ordinary carpets by finishing the edges, which stops wear and adds a decorative touch. This is perfect for customers looking to create unique home decor pieces from their existing carpets.

Their floor repair services cater to different types of flooring, such as luxury vinyl tile (LVT) and carpet. The team handles issues like damage and wear, as well as providing gap-filling for hardwood floors to maintain a smooth and long-lasting finish.

JJRM Flooring Ltd guides customers throughout their flooring project, offering a detailed fitting and installation guide along with their quotes. The company's collection of previous projects, available online, reflects their expertise and commitment to quality work.

Khan highlighted their commitment to building lasting relationships, saying, "Our focus remains on creating lasting relationships with our clients by providing high-quality products and exceptional service. Our presence in Crayford allows us to bring our expertise in flooring to a wider audience."

The expansion in Crayford is a significant development for JJRM Flooring Crayford, supporting their reputation for excellent service in London and beyond. By working with top brands like Amtico, Karndean, Kährs, and Westex Carpets, they ensure their clients get the best flooring options available.

As JJRM Flooring Ltd continues to widen their reach, they stay committed to satisfying their clients' various

flooring needs, enhancing interiors with a mix of style and practicality. For more about their services and offerings, visit their main website.
