

Free Live Webinars For Canadian Realtors Now Available

February 18, 2016

February 18, 2016 - PRESSADVANTAGE -

PrimeMarketingTeam.com is proud to announce an exciting milestone for Canadian realtors and the real estate industry. They are now offering a new service that has been available in the USA for quite some time. The webinars that they now provide have enabled various realtors across the United States to greatly improve their business. This same webinar, thanks to the Prime Marketing Team sponsors, is now available for free to Canadian realtors. People can sign up for the webinar at <http://www.primemarketingteam.com/>.

Anna Zarvanjski from Prime Marketing Team says: "Our webinars enable Canadian realtors to learn about some of the most astonishing shortcut secrets of the top real estate experts. These have been designed to help them increase their business. Essentially, we provide them with access to a high tech marketing system that uses the exact profitable strategies of the high producing real estate professionals. It is an opportunity that would be too good to miss."

The webinar takes place every Tuesday at 12 pm EST. It will be live and will aim to educate professional realtors about the tools and strategies that are applicable for today's market. Unfortunately, it seems many realtors continue to be stuck in 1999, so this information can be of tremendous benefit to them. A number of realtors have already signed up and have been very happy with what they have learned. More details about the weekly webinars can be obtained at <http://www.primemarketingteam.com/weeklywebinars>.

"These webinars are amazing," says one participant. "I have learned so much already, and that's after only taking part for two weeks. They share a wealth of information and I have to say that I had a bit of a light bulb moment. I finally understood that my own strategies may have worked 20 years ago, but they simply don't anymore now. I know these new strategies have been really successful across the US and I'm sure they will be here too. I have just started to implement them and I am already noticing a difference."

Those interested in the webinar or other services offered by PrimeMarketingTeam.com are encouraged to contact the company through <http://www.primemarketingteam.com/contact-us>.
