

Flat Rates Introduced For Official Taxi Company Of Bayahibe - La Romana

February 22, 2016

February 22, 2016 - PRESSADVANTAGE -

One of the most popular areas in the Dominican Republic is the one that falls under the La Romana Destination. Bayahibe is the most popular village in the area: it offers all-inclusive resorts as well as many other types of accommodation. La Romana Destination is easily accessible from Europe and the US via the airport and the cruise port that serve the area. Once the tourists reach the destination, Sichotuhbared makes it even easier for them to get around and visit all the various villages and towns.

Sichotuhbared, the official taxi company of the La Romana Destination area, has announced that they now offer flat rates for transfers from and to the major airports, being La Romana, Punta Cana and Santo Domingo Las Americas. Furthermore, they offer flat rates for set itineraries in the area. The company has been offering their highly reliable and professional service since 1989. More details are available on the Sichotuhbared website.

Julio Caraballo from Sichotuhbared says: "We have always prided ourselves on our professionalism, flexibility and commitment to customer service. It is for this reason that we have decided to introduce a number of flat rate trips to certain destinations in the Dominican Republic. This offers our travelers the opportunity to better

stretch their budget for their trips and to not be faced with any surprise bills on arrival. We're happy to see that the system is being appreciated."

The company offers clean and comfortable mini van taxis with air conditioning that can accommodate 6 to 12 people. Both short and long rides are available as the company offers to take its clients anywhere in the country. While these rides will continue as standard, it is the rides to specific popular destinations and the airports that are now available on a flat rate. Customers are encouraged to contact the company to find out what the exact price is for the journey they intend to take.

The Sichotuhbared Facebook page has also recently been launched. Here, they share information about the island and places to go, as well as other interesting facts for the tourists coming to the La Romana Destination. It is also an opportunity for others to discuss their experiences with the company and the Dominican Republic as a whole. "Thank you Sichotuhbared for the comfortable journey," says Ellen M. "The Dominican Republic is hot and, as much as I love it there, the cars are often in poor condition. It was a relief to be able to spend some time in the coolness of the air conditioned van and not have to worry about it breaking down."

All Sichotuhbared mini vans display the official Ministry of Tourism logo and all the drivers always wear their official uniform.

People are also encouraged to follow the Sichotuhbared Twitter page for further information.
