Cool Blew Inc. Unveils 24/7 Emergency AC Repair Services to Beat the Heatwave

September 09, 2025

Peoria, AZ - September 09, 2025 -
Cool Blew Inc., a family-owned HVAC company in Peoria, Arizona, has announced an expansion in its services. Customers can now take advantage of emergency AC repair services in Phoenix. This addition complements their existing range of HVAC, heating, plumbing, and solar energy services offered since the company's start in 2002

The introduction of emergency AC repair services in Phoenix comes at a critical time as summer temperatures soar. Cool Blew's team aims to service their customers' homes so they remain comfortable during these intense heat spells. The company works for quick response times, with 24-hour emergency services ready to tackle unexpected HVAC issues.

Scott Proctor, Operations Manager, shared insights on the expansion: "We understand the needs of our Phoenix clients, especially during summer. By expanding our services to include emergency AC repair, we not only meet those demands but also reinforce our pledge to provide trustworthy and timely solutions. Our team stands ready to offer the best service as quickly as possible."

Alongside these new services in Phoenix, Cool Blew Inc. also offers emergency commercial AC repair in Peoria. This move highlights their commitment to helping business owners maintain smooth operations with effective HVAC solutions. For businesses facing sudden air conditioning problems, Cool Blew aims to minimize downtime and avoiding productivity loss.

The wide array of services at Cool Blew Inc. continues to cater to both residential and commercial clients. Beyond AC repairs, they offer installation and maintenance services. Their offerings include efficient heating solutions, comprehensive plumbing services for homes and businesses, and solar energy systems. Clients can also access service plans and preventive maintenance agreements that help extend equipment life and optimize energy use, reducing utility expenses.

Cool Blew Inc. is dedicated to offering sustainable solutions with its solar service range, from solar panel installations to eco-friendly attic fans and water heaters. The aim is to assist customers in moving towards renewable energy, decreasing both environmental impact and energy costs.

Scott Proctor adds, "The future of energy is in sustainability, and we are here to help our customers transition. Our solar services demonstrate our mission to provide innovative and energy-efficient solutions."

Communities in Peoria, Surprise, Phoenix, Glendale, Sun City, and more are in Cool Blew Inc.'s service area. They work with reputable HVAC systems, ensuring top performance with ecological advantages.

Additionally, Cool Blew Inc. offers flexible financing options, making quality HVAC installations and repairs more affordable. These services ensure a comfortable environment for many people in Arizona.

Cool Blew Inc. uses advanced technology and maintains top certifications to maintain service. Their expanded services, particularly the emergency options in Phoenix and Peoria, highlight their dedication to excellence.

They also have a strong social media presence, which makes it easier for customers to stay connected and updated on new offerings. Platforms like Facebook, Twitter, and LinkedIn help them maintain open communication with the community.
