

BeBeezy Introduces Modern Handcrafted Furniture Collection While Honouring Its Timeless Classics in Cyprus

September 02, 2025

Paphos, CY - September 02, 2025 -
PAPHOS, CYPRUS ? BeBeezy, a distinguished name in handcrafted furniture design in Cyprus, has announced the launch of a fresh line of modern handmade furniture, blending clean contemporary lines with the classic, artisanal aesthetic that has long been the company?s hallmark. With its expanded vision, BeBeezy is reaffirming its role as a creative leader in the island?s furniture design landscape, while remaining anchored in traditional craftsmanship and sustainable materials.

From its dedicated workshop and showroom in Paphos, BeBeezy continues to build furniture that reflects a deep respect for material integrity and Cyprus?s natural character. The newest collection introduces pieces that respond to modern living preferences, including more streamlined silhouettes, modular forms, and light finishes, all while retaining the bespoke, human touch that defines the brand. The showroom is open to the public every Saturday and Sunday, offering visitors the opportunity to view and experience the full range of both new and classic designs in person.

According to the company, this new direction stems from a desire to evolve in tandem with the shifting

lifestyles and design sensibilities of its clients. Rather than abandoning the brand?s signature look, the current collection introduces new forms that harmonise with existing ones, allowing clients to mix and match according to taste, space, and function.

?The intention has never been to replace what people already love about BeBeezy. The aim is to grow thoughtfully, to refine the offering, and to introduce new expressions that reflect how people live and feel in their homes today,? said the spokesperson. ?There is something special about a piece of furniture made by hand, in Cyprus, with care. That feeling hasn?t changed, it?s just taken a new shape.?

Founded with the belief that furniture should tell a story, BeBeezy has gained a loyal following across Cyprus by creating bespoke pieces using solid woods, natural fibres, and finishes that allow the materials? inherent qualities to shine through. The latest additions reflect a continued commitment to that ethos, now presented in a refreshed design language that brings together heritage and innovation.

This announcement also marks an expansion in service areas. BeBeezy has confirmed that custom orders, delivery, and installation services are now fully available in Limassol, Nicosia, Ayia Napa, and Paphos, ensuring that clients across the island can benefit from the brand?s unique offering. As interest in custom-built interior furnishings increases among both residential and boutique commercial clients, the company aims to meet demand with efficiency and artistry.

Designers, hoteliers, and homeowners alike are drawn to the balance of form and function offered by BeBeezy?s latest collection. Pieces such as hand-joined dining tables, adaptable shelving units, and low-profile lounge chairs are being made to order, with flexible dimensions and finish options tailored to each project.

The company reports growing collaborations with architects and interior professionals, many of whom are seeking furniture that complements Cyprus?s architectural style while also introducing a sense of distinctiveness. BeBeezy has responded by increasing design consultations and by offering hybrid pieces that draw on both their new and legacy models.

Every item is still crafted in-house by skilled artisans, ensuring quality control from raw material selection through to final assembly. Clients are invited to visit the Paphos showroom on weekends to explore new samples, request custom adaptations, or consult with the team on larger residential or commercial projects.

?The workshop has always been about more than just producing furniture; it?s about creating pieces that live alongside people and become a part of their daily rituals,? added the spokesperson. ?As BeBeezy introduces new designs, that vision becomes even more relevant. People want meaningful interiors. They want story, texture, identity. And that?s exactly what we?re building.?

With sustainability, authenticity, and creative integrity at its core, BeBeezy continues to chart its own path in Cyprus?s interior design and furnishings space. The new collection and expanded island-wide services reflect not only a growing demand for custom furniture, but also a deep appreciation for craft in an age of convenience.

For further details and to schedule an appointment, please visit BeBeezy?s official website. Clients and visitors can explore the collection in person at the Paphos showroom every Saturday and Sunday.
