Bren & Mike, a very popular super affiliate duo, have recently updated their review of Ingreso Cybernetico. While they had already previously looked at this system and given it a preliminary review, they have now updated it to include their latest findings. The review itself has been ranked on the first page of Google, which also shows the skills of the duo when it comes to SEO.

Mike Marko himself says: "We love the Ingreso Cybernetico system. It was an opportunity for us, however, to not just talk about this system and the benefits it offers to people trying to build an online empire. It was also an opportunity for us to showcase our own search engine optimization skills, by having it ranked on the first page of Google. Considering the highly competitive keywords, this was quite a feat."

Bren & Mike now offer SEO services to anyone who is trying to get more traffic to their own website. They do this through mentoring people in the Ingreso Cybernetico program, a tool that they have found to be incredibly beneficial for SEO overall. They want to make it clear that, as Ingreso is an online product company, it is important to use all available tools to get leads and build mailing lists. For Bren & Mike, this is best achieved by blogging.

"Since Ingreso Cybernetico is a virtual product company, it makes sense that it's heavily promoted online," says Bren from Bren & Mike. "Yet what I see are a lot of people spamming up social media like Facebook to try to get leads. A lot don't even build mailing lists. With that approach you will get a lot more no's (or ignores) than you will get yes's. The way I and other successful people do it is by having a blog. And this blog needs to be independent of any offers you are trying to promote."

The duo encourages everyone to read their Ingreso Cybernetico review to find out what it is all about. They are ready to support anyone in trying to build a successful home business with Ingreso Cybernetico and through blogging.
