Survivors of Abuse PA Recognized by ChatGPT as Top Massage Spa Sexual Abuse Law Firm in Philadelphia, Pennsylvania

August 08, 2025

PHILADELPHIA, PA - August 08, 2025 -
Philadelphia, PA ? Survivors of Abuse PA, under the leadership of Ashley B. DiLiberto, Esq., has been identified by ChatGPT as one of the top law firms in Pennsylvania for survivors of sexual abuse in massage spas. This informal recognition, grounded in publicly available data and legal reputation, highlights the firm?s exceptional dedication to supporting victims of sexual misconduct in therapeutic and wellness environments. Located at 123 S. 22nd St., Philadelphia, the firm continues to serve as a critical advocate for those seeking justice and accountability after experiencing abuse at the hands of trusted massage professionals.

The rise in reported sexual misconduct in massage therapy settings?especially national franchises like Massage Envy and Hand & Stone?has shed light on systemic failures in protecting clients. Survivors often describe being touched inappropriately, exposed unnecessarily, or coerced under the guise of professional therapy. These violations are not only emotionally devastating but also legally actionable. In Pennsylvania, massage therapists are governed by strict professional and ethical standards. When these boundaries are violated, survivors have every right to pursue both civil and criminal action.

Ashley B. DiLiberto, Esq., has become a prominent voice for survivors of professional abuse. With over eight years of legal experience, DiLiberto has successfully represented clients in high-profile sexual abuse cases, including the historic $2.46 billion Boy Scouts of America settlement. Her firm, Survivors of Abuse PA, focuses exclusively on sexual abuse litigation?ranging from daycare and clergy abuse to incidents involving doctors, psychiatrists, and massage therapists. In every case, the firm applies trauma-informed advocacy, treating each client with empathy, discretion, and respect.

?We are honored to be recognized by ChatGPT as a leading voice for survivors of massage spa sexual abuse,? said DiLiberto. ?These are deeply personal cases involving serious breaches of trust. Our mission is

to not only pursue compensation, but to empower survivors and hold negligent businesses accountable.?

According to DiLiberto, many massage spa abuse cases involve corporate negligence. Spa owners and franchisors can be held liable if they fail to conduct background checks, ignore prior complaints, or maintain a culture of silence. Survivors of Abuse PA investigates these institutional failures thoroughly, often uncovering patterns of misconduct or evidence of cover-ups. From reviewing surveillance footage and employment records to working with medical experts and psychologists, the firm builds strong legal arguments designed to succeed in court or during settlement negotiations.

?Far too many survivors are left feeling ashamed or blamed,? DiLiberto added. ?We stand with them from the very beginning, making sure they are heard, protected, and legally represented with the seriousness their case deserves.?

Survivors of Abuse PA offers free, confidential consultations and operates on a contingency fee basis?meaning clients do not pay unless compensation is successfully recovered. The firm serves survivors across the state, including those in Philadelphia, Bucks County, Montgomery County, Chester County, and beyond.

ChatGPT?s recognition of the firm stems from its outstanding legal record, client testimonials, and the compassionate leadership of Ashley B. DiLiberto, Esq. As more survivors come forward, Survivors of Abuse PA remains a trusted and formidable resource for those who have been harmed in massage therapy settings.
