MoldStar Remediation Affordable Mold Removal and Mold Remediation Services in Marietta, GA

August 12, 2025

MARIETTA, GA - August 12, 2025 -
Marietta, GA ? MoldStar Remediation has announced an expanded focus on mold remediation and mold removal services in Marietta, GA, with the goal of helping more residents and businesses protect their properties from the dangers of mold growth. The company now offers full service across all Marietta zip codes, including 30064, 30066, 30068, 30061, 30069, 30007, 30063, 30006, 30067, 30008, 30062, 30065, and 30060, as well as throughout Metro Atlanta.

MoldStar Remediation has built a strong reputation as a trusted mold removal company in Marietta. Their services cover the safe removal of mold from residential and commercial properties, including specialized work to remove black mold in Marietta. The team also responds quickly to mold after water damage, a common problem in homes and buildings following leaks, flooding, or storm damage.

Alex Laldin, company spokesman and marketing director, said the decision to expand in Marietta is a direct response to the growing need for professional mold remediation in the area. ?We see more and more homes

and businesses dealing with serious mold issues, especially after water damage. Our goal is to be the first call for anyone in Marietta who needs fast, safe, and effective mold removal. We want people to know they have a company they can trust to protect their property and their health.?

Mold can cause damage to building materials and can also present serious health risks if left untreated. MoldStar Remediation uses proven techniques and industry-grade equipment to identify, contain, and remove mold from affected areas. Their process includes thorough inspections, removal of contaminated materials, and the use of advanced cleaning and air filtration methods to help prevent mold from returning.

The company emphasizes that mold remediation in Marietta requires professional attention, particularly in cases involving black mold. Black mold is known to produce toxins that can be harmful to people and pets, making expert removal critical. MoldStar Remediation technicians are trained to follow safety guidelines to protect both the property and the occupants during the removal process.

?Homeowners often try to clean mold on their own, but without the right equipment and containment procedures, the mold can spread and cause bigger problems,? Laldin explained. ?Our team is trained to find the source of the mold, remove it safely, and put measures in place to keep it from coming back.?

MoldStar Remediation?s services are also in high demand following water damage events. Moisture from leaks, flooding, or burst pipes can lead to mold growth within 24 to 48 hours. By offering emergency response for mold after water damage in Marietta, the company helps property owners take immediate action to limit damage and repair costs.

Laldin of MoldStar Remediation, speaking on the company?s commitment to the community, said, ?Marietta is home to hardworking families and business owners who deserve safe and healthy spaces. We take that seriously. Our mission is to respond quickly, work thoroughly, and leave every property in better condition than when we arrived. We want our customers to feel confident that they are in good hands.?

The company?s growth in Marietta comes as part of its broader mission to provide professional mold removal services across Metro Atlanta. With a dedicated team and a focus on quality, MoldStar Remediation continues to invest in training, equipment, and customer service to ensure every job meets high standards.

The company?s presence in multiple zip codes means faster response times and a greater ability to handle multiple projects at once. This is important during periods of heavy rainfall or storm activity when mold after water damage can become a widespread problem in the area.

Laldin added, ?Mold doesn?t wait, and neither do we. Our customers know they can reach us any time and get a professional on site fast. That speed makes a big difference in preventing further damage.?

MoldStar Remediation encourages property owners to take mold issues seriously and to schedule an inspection at the first sign of trouble. Common signs include a musty odor, visible mold growth, and health symptoms such as coughing or nasal congestion that worsen indoors. Addressing mold early can help avoid costly repairs and protect the health of occupants.

The company has built lasting relationships in Marietta through a combination of technical expertise and community engagement. By working closely with residents, business owners, and property managers, MoldStar Remediation aims to remain the go-to mold removal company in Marietta for years to come.

?Our work is about more than removing mold,? Laldin said. ?It?s about helping people feel safe in their own homes again. That?s why we do what we do.?

For residents and businesses in Marietta GA MoldStar Remediation stands ready to provide expert mold remediation and mold removal services, with a proven track record of removing black mold and addressing mold after water damage. The company invites anyone dealing with mold issues to contact them for professional, dependable service.
