

Jamie's Physical Therapy & Sports Medicine Approaches 5 Year Anniversary

February 16, 2016

February 16, 2016 - PRESSADVANTAGE -

Jamie's Physical Therapy & Sports Medicine is proud to announce that they are approaching their 5th Anniversary. The anniversary of their business will be February 28, 2016. This is a tremendous accomplishment for Jamie and Susan Young (owners of Jamie's PT).

On February 28, 2011 they opened their doors to welcome the patients of the Beaver County community, hoping to serve them by providing five star customer service and world class physical therapy treatment. The Jamie's PT slogan, "where we treat you like family" has stood strong over the last 5 years, expanding the family by providing clinics in the Hopewell, Center Twp. and New Brighton areas. "I chose to open these clinics in this area due to the overwhelming kindness displayed to me by the people of this community," Jamie Young, MPT stated.

Jamie and his staff will be providing his well-known snacks and coffee throughout the week of February 22nd at their Hopewell location and is requesting that former patients stop in to say hello and share their memories of the past 5 years at Jamie's PT.

"We look forward to seeing everyone and want to thank the people of the community for all of their support over the past 5 years," Jamie says. "We are truly blessed and honored to be serving such an amazing area."
