

BeBeezy Showcases Exceptional Handmade Sofas in Paphos Showroom, Offering Custom Colours and Styles for Homes Across Cyprus

September 08, 2025

Paphos, CY - September 08, 2025 -
PAPHOS, CYPRUS ? BeBeezy, an artisan furniture maker known for its commitment to craftsmanship and design integrity, has announced an expanded focus on its range of handmade sofas. Each sofa is crafted to order, allowing clients to select from an extensive palette of colours, fabrics, and styles, ensuring that every piece is as unique as the space it inhabits. The announcement reinforces BeBeezy?s reputation for producing furniture that combines durability, comfort, and aesthetic refinement.

Made entirely in Singapore by skilled craftspeople, BeBeezy sofas are built to last for years without compromising on visual appeal. The frames are constructed using solid materials selected for their strength and stability, while the upholstery process is tailored to each client?s individual vision. The result is a seating experience that reflects both traditional handcrafting techniques and modern design sensibilities.

The company?s showroom in Paphos, open every Saturday and Sunday, offers visitors the opportunity to experience these sofas in person. Clients can view completed models, examine fabric samples, and consult with the design team on bespoke configurations. This direct interaction with the craft and materials ensures

that every sofa is a reflection of the client?s lifestyle and interior scheme.

According to the company, the emphasis on made-to-order production is a deliberate choice, aligning with BeBeezy?s broader philosophy of creating furniture that carries both functional and personal value. ?A sofa is more than just a place to sit, it?s the anchor of a living space,? the spokesperson said. ?By crafting each piece by hand, with the client?s preferences at the forefront, BeBeezy ensures the final result is not only comfortable but also a true representation of the home it will belong to.?

The range includes compact designs for smaller urban spaces, generous corner units for open-plan living, and statement pieces that act as focal points in hospitality settings. Clients can choose from rich textiles, soft leathers, and performance fabrics designed to withstand everyday wear while maintaining their texture and colour. Cushion fillings are selected for both comfort and support, ensuring the balance between relaxation and posture.

While the latest designs explore contemporary proportions and clean silhouettes, BeBeezy continues to offer sofas that draw on classic influences, featuring deep seating, rolled arms, and tailored detailing. The combination of these options enables homeowners and interior designers to integrate BeBeezy sofas into a variety of settings, from coastal retreats to modern city apartments.

The announcement comes at a time when the demand for high-quality, custom-made furniture is growing steadily in Cyprus. As more clients turn away from mass-produced alternatives, BeBeezy is responding by expanding its services across the island. Delivery and installation are available to clients in Limassol, Nicosia, Paphos, Ayia Napa, and other key locations, making it easier for homeowners and businesses to access the brand?s bespoke offerings.

In recent months, the company has seen an increase in collaborative projects with architects, boutique hotels, and property developers seeking unique statement seating for their spaces. Whether integrated into a comprehensive interior design scheme or serving as a standalone investment piece, BeBeezy sofas are designed to enhance both the aesthetic and practical aspects of a room.

Every stage of the production process is carried out by the in-house team, from the initial concept sketches through to final assembly and upholstery. This hands-on approach ensures that each sofa meets the brand?s rigorous quality standards while allowing for the flexibility required in custom design work.

?The sofa is often where people gather, relax, and spend meaningful time together,? the spokesperson added. ?It should feel inviting, look distinctive, and be built with care. That is the foundation of every BeBeezy piece.?

Clients interested in exploring the handmade sofa collection are encouraged to visit the Paphos showroom during weekend opening hours. The setting allows visitors to test seating comfort, view full-size models, and select finishes that suit their personal style. Consultations for custom orders are also available by appointment.

For further details, including bespoke design options and island-wide delivery, contact BeBeezy?s press office via the official website.
