

Rigert Treppenlifte AG Expands Home Elevator Installation Services for Two Story Homes

September 16, 2025

Küssnacht am Rigi, SZ - September 16, 2025 -
Rigert Treppenlifte AG, a leading Swiss mobility solutions provider with over 60 years of experience, has announced expanded installation services for residential elevators and platform lifts designed specifically for two-story homes throughout German, French, and Italian-speaking regions of Switzerland.

The expansion addresses growing demand from Swiss homeowners seeking accessible mobility solutions that enable aging in place and accommodate family members with mobility challenges. The company's enhanced service offerings include comprehensive consultation, custom design, and professional installation of home elevators, platform lifts, and stairlifts tailored to the unique architectural requirements of two-story residences. For more information, visit Rigert Treppenlifte AG's website: https://s3.amazonaws.com/slstacks/rigert/id.html

"With Switzerland's aging population and increasing focus on home accessibility, we're seeing unprecedented demand for residential mobility solutions," said H. Lindstrom, spokesperson for Rigert Treppenlifte AG. "Our

expanded installation services ensure that homeowners across all regions of Switzerland can access the mobility solutions they need to maintain independence and quality of life in their own homes."

The company's installation teams now provide enhanced coverage across Switzerland's diverse linguistic regions, offering consultations and installations in German, French, and Italian. This regional expansion ensures that customers receive personalized service in their preferred language while benefiting from local expertise in navigating regional building codes and accessibility requirements.

Rigert Treppenlifte AG's home elevator and platform lift solutions are engineered to integrate seamlessly into existing two-story homes without requiring major structural renovations. The company's installation process typically involves minimal disruption to daily life, with most residential projects completed within days rather than weeks. Each installation is customized to match the home's aesthetic while meeting strict Swiss safety standards.

The expanded service initiative includes partnerships with healthcare providers and senior living advisors to ensure comprehensive mobility assessments for clients. These collaborations help identify the most appropriate mobility solutions based on individual needs, home layout, and long-term accessibility goals. News and updated information about the company can be found at h https://pressadvantage.com/organization/rigert-treppenlifte-ag.

"Our commitment extends beyond installation to include ongoing maintenance and support," added Lindstrom. "We maintain the industry's largest customer service network in Switzerland, ensuring that every lift we install continues to operate safely and reliably for years to come."

The company's product portfolio includes straight and curved stairlifts, wheelchair platform lifts, and compact home elevators suitable for both indoor and outdoor installation. Each solution undergoes rigorous testing and quality control measures before installation, reflecting the company's commitment to Swiss precision and reliability.

Rigert Treppenlifte AG, established in 1962 and part of the Garaventa Group, specializes in mobility solutions including stairlifts, platform lifts, wheelchair lifts, and home elevators. The company operates throughout Switzerland with branches serving German, French, and Italian-speaking regions, providing consultation, installation, and maintenance services for residential and commercial accessibility solutions.
