

Collision Auto Glass and Calibration Elevates Portland Vehicle Safety with Expanded ADAS Services

August 21, 2025

Portland, Oregon - August 21, 2025 -
Collision Auto Glass and Calibration proudly announces it is widening its range of services to better assist the Portland community. With more and more vehicles becoming advanced, it's crucial to have specialized calibration for driver-assistance systems after replacing auto glass. The company, known for its high-quality auto glass repair and replacement services, uses advanced technologies like MaxiSYS and Opti-Aim for precise calibrations, which are essential for keeping modern vehicles both safe and fully operational.

The expansion introduces state-of-the-art calibration technology and a group of well-trained technicians familiar with the latest industry techniques. This step forward helps the company meet the increasing need for dependable ADAS services in the area. As more cars with these systems are on the road, getting accurate calibration becomes important. That's why Collision Auto Glass and Calibration's services are so valuable for local drivers.

A representative from Collision Auto Glass shared the company's thoughts: "Our mission has always been to

offer top-quality services that prioritize the safety and satisfaction of our customers. With this expansion and improved abilities, we are now better prepared to cater to the specific needs of today's vehicle owners." He pointed out the company's dedication to keeping up with industry trends and technological upgrades to consistently deliver excellent service.

Customers often commend the company for its professional approach and reliable, high-quality service. One recent five-star review of Collision Auto Glass and Calibration praised the team's skill and care. The reviewer was very pleased with how smooth the whole process was, from setting up an appointment to finishing the service. This positive feedback shows how committed the company is to making sure customers are satisfied and maintaining industry standards.

Besides regular auto glass repair and replacement, the new services include full ADAS calibrations. These are vital for cars with features like lane departure warnings, automatic emergency braking, and adaptive cruise control. Proper calibration of these systems is key to avoiding accidents and ensuring the safety of everyone on the road. Detailed information about these services can be found on their website.

The representative spoke about the company's progress. "We've put a lot into training and technology to offer services that are second to none. Our team knows the details of modern vehicle systems, and we promise to deliver accurate and dependable calibrations every time." She believes this commitment to accuracy and quality sets them apart in the auto service market.

Staying true to its customer-first mindset, the company offers clear pricing, straightforward scheduling, and quick service to aid vehicle owners in keeping their cars' safety features up to date. By focusing on convenience and satisfaction, Collision Auto Glass and Calibration aims to build strong, trusting relationships with its customers.

The company urges Portland residents to use its enhanced services for keeping their vehicles in top shape. Residents can also take advantage of their mobile services, which allow for convenient auto glass repair and replacement at their location, further emphasizing customer ease. As the auto industry keeps growing, Collision Auto Glass and Calibration is dedicated to leading with high-quality service and a focus on customers.

For more details about the new service options or to book a visit, people can check out the comapny's official website or get in touch with their customer service team. Backed by solid expertise and innovative practices, Portland's Collision Auto Glass and Calibration anticipates a promising future, making sure vehicles and their systems perform well.
