The León Law Firm Launches New Website to Better Serve Texas Personal Injury Clients

August 20, 2025

August 20, 2025 -
HOUSTON, TX ? The León Law Firm, a trusted Texas personal injury law firm dedicated to protecting the rights of individuals and families, has officially launched a newly designed website to enhance the online experience for current and prospective clients. The redesigned site reflects the firm?s ongoing commitment to accessible, client-focused legal services while showcasing its proven experience in securing justice and fair compensation for injury victims.

For decades, The León Law Firm has built its reputation on results and relationships. Led by founder Carlos León, the firm represents clients in a wide range of personal injury cases, including motor vehicle accidents, workplace injuries, wrongful death, and other catastrophic injury matters. The new website was created with accident victims and their families in mind, ensuring that important information is easy to find and understand during some of life?s most difficult moments.

The user-friendly site includes detailed descriptions of practice areas, recent case results, and client testimonials. Visitors can also access resources designed to help them better understand their rights and the legal process, empowering them to make informed decisions when facing complex personal injury claims.

To bring this vision to life, The León Law Firm partnered with ASTOUNDZ, a leading Houston-based digital marketing and web development agency known for its expertise in creating high-performance websites.

?We wanted our website to be more than just an online brochure,? said Carlos León, Founder of The León Law Firm. ?Our goal was to create a resource where people who are facing difficult, life-changing situations can quickly find information, learn their rights, and easily connect with us for help. ASTOUNDZ helped us achieve that.?

The redesigned site features a clean, modern look with mobile-friendly functionality that ensures seamless

performance across all devices. Streamlined contact forms allow potential clients to connect with the firm quickly, while dedicated sections for practice areas make it easy to understand the firm?s scope of services.

ASTOUNDZ applied its proven ?One Search, One Click, One Company? philosophy in developing the website. This approach ensures that users can quickly find the information they need while also delivering strong search engine optimization (SEO) performance.

?Accessibility and clarity were our top priorities,? said Steve Winter, Founder of ASTOUNDZ. ?We wanted The León Law Firm?s website to reflect their professionalism and compassion, while also performing at the highest level for search engine visibility so more people in need can find them.?

The site?s SEO-focused design helps connect The León Law Firm with individuals across Texas who are searching for trusted personal injury representation. Built with scalability in mind, the website can grow alongside the firm, with easy updates for new case results, helpful blog content, and community news.
