

Trevi Pools and Spas Kelowna Announces Fall Pool Closings Services for In-Ground and Above-Ground Pools

September 11, 2025

Kelowna, British Columbia - September 11, 2025 -
As the cooler months approach, Trevi Pools & Spas Kelowna is proud to announce professional pool closing services for both in-ground and above-ground pools. Properly winterizing a pool is essential for protecting equipment, saving money on costly repairs, and ensuring a smooth and stress-free opening in the spring.

Trevi Pools & Spas is the British Columbia franchise for Trevi, a company recognized across Canada for over 53 years of excellence in the pool and spa industry. Trevi?s in-ground pools, above-ground pools, and custom pool liners are proudly manufactured in Canada, with spas manufactured by a trusted sister company Lacus. By keeping production in Canada, Trevi keeps costs competitive, supports Canadian businesses, and reduces the environmental impact of long-distance shipping.

?Manufacturing in Canada allows us to keep costs down for our valued clients as well as providing top-notch

swimming pools Kelowna loves,? said Paul Tallon, owner of Trevi Pools & Spas Kelowna.

This Made in Canada approach strengthens the company?s supply chain, ensures parts are always available for service, and allows clients to order pool liners early for spring installation.

While Trevi continues to innovate with new technologies and sustainable practices, the company remains committed to quality service and seasonal pool closings are an essential part of that promise. Incorrectly winterizing a pool can damage plumbing, filters, and equipment. By booking a professional pool closing with Trevi Pools & Spas, customers can rest easy knowing their investment is protected.

Limited spots are available for fall pool closings in Kelowna, so customers are encouraged to schedule their service early.

For more than 50 years, Trevi Pools & Spas has been delivering premium pools and spas to families across Kelowna, BC, and Calgary, AB. Whether it?s pool and spa sales, installation, or maintenance, Trevi continues to combine Made in Canada quality with trusted expertise.
