

Kustomz Truck & Auto Expands Services with Marine and RV Fiberglass Repair in Rapid City, SD

October 06, 2025

Rapid City, SD - October 06, 2025 -
Kustomz Truck & Auto, an automotive service provider in Rapid City, South Dakota, has expanded its comprehensive repair capabilities to include specialized fiberglass and gelcoat repair services for marine vessels and recreational vehicles. The expansion addresses growing demand from boat and RV owners seeking professional restoration services in the Black Hills region.

The company now offers Marine and RV Fiberglass and Gelcoat Repair services in Rapid City SD, providing solutions for everything from minor surface blemishes to major structural damage. The service expansion leverages the shop's existing expertise in automotive body repair and custom restoration work, applying these skills to the unique requirements of marine and recreational vehicle maintenance.

"We recognized a significant gap in the local market for specialized fiberglass repair services," said Steve Darling, a representative for Kustomz Truck & Auto. "Boat and RV owners previously had limited options for professional repairs in the area. Our technicians have undergone specialized training to handle the unique

challenges of fiberglass and gelcoat restoration, ensuring that we can deliver the same quality workmanship our automotive customers have come to expect."

The expanded services include comprehensive fiberglass structural repair, gelcoat restoration, and complete hull or exterior refinishing for both boats and recreational vehicles. Technicians at the facility can address issues ranging from stress cracks and impact damage to delamination and water intrusion problems. Following repairs, the team applies professional gelcoat painting techniques to restore the original appearance of boat hulls and RV exteriors.

Affordable Marine and RV Fiberglass and Gelcoat Repair in Rapid City has become a priority for the company as they work to make professional restoration services accessible to a broader range of customers. The shop offers free estimates for all repair work, and walk-in consultations are welcome during regular business hours, Monday through Friday from 7:00 am to 6:00 pm.

The timing of this service expansion aligns with increased recreational vehicle and boat ownership in South Dakota, where outdoor recreation continues to grow in popularity. Many RV and boat owners face challenges finding qualified repair facilities that understand the specific requirements of fiberglass and gelcoat work, which differs significantly from traditional automotive body repair.

Expert Marine and RV Fiberglass and Gelcoat Repair Rapid City SD requires specialized knowledge of composite materials, proper preparation techniques, and environmental considerations during the curing process. The facility has invested in dedicated workspace and equipment specifically designed for fiberglass repair work, including proper ventilation systems and temperature-controlled environments, which are essential for quality gelcoat application.

Kustomz Truck & Auto has served the Rapid City community for years, establishing a reputation for quality automotive services, including collision repair, custom conversions, classic car restoration, and mobile audio installation. The addition of marine and RV repair services represents a natural evolution of their capabilities, allowing them to serve customers across multiple vehicle categories. The company maintains a commitment to expert craftsmanship and customer satisfaction across all service lines, from traditional automotive work to their newest specialized repair offerings.
