

Keathley Landscaping Expands Services and Broadens Offerings With Cedar Fencing And Yard Drainage

September 10, 2025

GARLAND, TX - September 10, 2025 -
Keathley Landscaping, a landscaping company based in Dallas, Texas, shares its expansion into Rockwall, Texas. The company is also bringing new services to the area, such as custom cedar fencing and advanced yard drainage solutions, tailored to meet the specific needs of Rockwall residents. Founded in 2002, Keathley Landscaping has offered expert landscaping services, and this move is set to extend their expertise to a broader audience.

"Expanding our offerings to Rockwall is an exciting development for our company," said Logan Keathley of Keathley Landscaping. "We are committed to providing the community with the same high level of service and expertise that we've delivered in Dallas and surrounding areas for over two decades. Our services in cedar fencing and yard drainage are designed to enhance both the beauty and functionality of our clients' properties."

Keathley Landscaping focuses on both the beauty and practical needs of outdoor spaces. Offering custom

cedar fencing will satisfy the growing demand for durable and attractive fencing options. Cedar is naturally resistant to decay and pests, making it a perfect, low-maintenance option for homeowners. The company offers various cedar fencing styles, from classic picket fences to modern horizontal designs, ensuring that each project aligns with the client's vision.

Another important service Keathley Landscaping provides is yard drainage. Poor drainage can cause significant damage to homes and landscapes, becoming a costly issue for many property owners. With Logan Keathley's certification and skills, Rockwall residents can expect thorough drainage services, including French drains, grading solutions, and customized buried systems. These services aim to reduce the risk of flooding and protect properties from water damage.

Logan Keathley, an NDS Certified Drainage Contractor, has seen all types of drainage problems and strives to find innovative solutions in any situation. From French drains and grading to large custom-designed and buried drainage pipes, Keathley understands them all.

Alongside cedar fencing and drainage solutions, Keathley Landscaping will continue providing various other services in Rockwall. This includes stonework in both natural and contemporary styles, offering clients numerous materials and styles to achieve their ideal outdoor look. Retaining walls and veneers are available as well, providing structural support and enhancing landscape visuals. Plus, the company offers outdoor living spaces like kitchens, fireplaces, and fire pits, providing homeowners opportunities to enjoy their yards throughout the year.

"We take pride in transforming outdoor spaces into beautiful, functional areas that our clients love," added Keathley. "Our dedicated team is focused on understanding our clients' needs and exceeding their expectations, whether it's a simple flowerbed border or a complex drainage system."

Keathley Landscaping values supporting the community and focusing on customer-centric approaches. Looking ahead, the company is eager to explore the opportunities that come with the Rockwall expansion. By addressing both aesthetic and functional needs, the company offers clients services tailored to various landscaping requirements.

The company website provides more information on their extensive range of services and the unique offerings for Rockwall, including custom cedar fencing and drainage solutions.

As Keathley Landscaping prepares to start this exciting new chapter in Rockwall, they invite new clients to see the benefits of working with a company that values quality, innovation, and customer satisfaction. For
