

Vision Workshop for Self Development and Purpose Discovery Announced by Training Solutions LLC

August 27, 2025

Kekaha, Hawaii - August 27, 2025 - PRESSADVANTAGE -

An interactive two-day online workshop helps people align goals with authentic purpose, using a methodology refined through 17 years of research.

Training Solutions LLC announces a complimentary Vision Workshop designed for entrepreneurs and business leaders seeking personal growth and purpose alignment. The interactive online workshop takes place Sept. 4 and 6, 2025. Sessions are scheduled for Thursday at 7 p.m. EDT and Saturday at noon EDT.

Registration for the workshop is available at: <https://followlink.cc/vision-workshop>.

The program requires minimal pre-workshop preparation and active participation throughout both sessions. The workshop encourages individuals to find real motivations and desires through self-discovery rather than following outside expectations.

Mark Januszewski, bestselling author and co-creator of the Master Key Experience, stated, "We've studied goal statements and definite purpose statements for 17 years. We worked with more than 3,300 people learning the same material. We found that some of them manifested, but some of them did not. This happened even when they were doing the work. It turned out that the ones succeeding had three things in alignment before choosing their Big Dream."

The workshop methodology centers on alignment. It helps attendees define three key elements: their core motive, authentic purpose, and personal pivotal needs. Training Solutions designed the workshop so participants leave with direction they can apply after the sessions to direct future efforts.

Drew Timm, an entrepreneur and workshop participant, said the Vision Workshop gave him clarity. "I came away with laser focus on exactly what I'm evolving into and for. It's become an ever-present light for me."

Participants complete a 47-question assessment that uncovers their driving core motive. This is the psychological force shaping behavior and habits since birth. The assessment gives them clarity on how to channel energy more effectively in work and life.

Through guided exercises, participants define their authentic purpose and personal pivotal needs, then clarify their Big Dream. They learn to distinguish between genuine needs and conditioned wants. Attendees craft a single guiding statement that reflects what matters most to them personally.

"The workshop ignited passion and transformed my perspective to see endless possibilities. I discovered my true purpose through powerful exercises focused on my strengths," said Laura Kennedy, a holistic practitioner and workshop graduate.

Training Solutions states that its vision is to help people become self-directed thinkers. Every exercise in the Vision Workshop is designed to support that goal by guiding individuals to discover their own answers.

"True growth comes when people stop relying on outside approval and start thinking for themselves," said CEO Davene Januszewski. "That's why our exercises are not about telling attendees what to believe. They are structured to help each person uncover their Big Dream and true purpose from within."

Session one occurs Thursday, Sept. 4, at 7 p.m. EDT. Session two follows Saturday, Sept. 6, at noon EDT. Each session guides attendees through structured personal growth exercises.

The interactive format requires attendees to complete some preparation work before attending. Training Solutions emphasizes that people perform exercises rather than receive passive instruction.

Lori Enrico is co-creator of the book *7 Laws of the Mind* and serves as a workshop facilitator. She explained the program's structure. "Participants do real work, not passive learning," Enrico said. "Preparation and active engagement ensure meaningful results and lasting transformation."

"This training exercise walks you through the steps to discover, embody, and articulate your purpose. Yep! I said exercise. You get to work on you. There's nothing like it!" said DJ White, a fitness professional and bodybuilder.

"This is the key that unlocks transformation," said Lori Enrico of Training Solutions. "It cuts through conditioning so participants can discover their true purpose, uncover their heart's desire, and become what we call manifesting machines."

This complimentary workshop is for entrepreneurs, business leaders, and individuals seeking balance between professional objectives and personal values. The sessions focus on education, self-discovery, and practical application.

Training Solutions positions the workshop as an educational experience focused on inner development and purpose discovery.
