

Keathley Landscaping Expands Residential Yard Drainage Company Solutions

September 23, 2025

GARLAND, TX - September 23, 2025 -
Keathley Landscaping has expanded its specialized drainage services to address the growing need for professional water management solutions in Rockwall, Texas. The company, led by NDS Certified Drainage Contractor Logan Keathley, brings advanced expertise in solving complex yard drainage problems that threaten property foundations and landscape investments.

The expansion comes as homeowners throughout Rockwall face increasing challenges from poor yard drainage, which can lead to flooding, foundation damage, and landscape erosion. These issues, often not covered by standard homeowners insurance policies, require professional intervention to prevent costly property damage.

As a reisdential residential drainage company Rockwall TX, Keathley Landscaping offers comprehensive solutions ranging from French drain installation to large-scale custom-designed buried drainage pipeline systems. The company's certification through NDS (National Drainage System) ensures that each project

meets industry standards for effective water management.

"Every drainage problem has a solution, but it takes the right expertise to identify and implement the most effective approach," said Logan Keathley, founder and NDS Certified Drainage Contractor at Keathley Landscaping. "We've seen firsthand how proper drainage can save homeowners thousands of dollars in potential damage while transforming problem areas into functional, attractive landscapes."

The company's drainage services address various water management challenges, including standing water in yards, erosion issues, and water intrusion near foundations. Through careful grading, strategic French drain placement, and custom pipeline design, the team creates comprehensive drainage systems tailored to each property's unique topography and needs.

Keathley Landscaping's approach begins with a thorough site evaluation to identify water flow patterns and problem areas. The team then develops customized solutions that not only resolve immediate drainage issues but also prevent future water-related problems. This methodical approach has established the company as a drainage specialist in the Rockwall area.

"Homeowners often don't realize the extent of damage that poor drainage can cause until it's too late," added Keathley. "Our goal is to provide practical, cost-effective solutions that protect their investment and give them peace of mind during heavy rain events."

Beyond drainage services, Keathley Landscaping offers comprehensive landscape solutions including sod installation, landscape lighting, stonework and retaining walls, hardscape installation, and tree services. This full-service approach allows the company to integrate drainage solutions seamlessly with overall landscape design and maintenance.

Keathley Landscaping has served the Dallas-Fort Worth metroplex since 2002. The company's expansion of drainage services in Rockwall represents its commitment to addressing the specific needs of local homeowners while maintaining its focus on practical, affordable solutions. With over two decades of experience in landscape and drainage services, the company continues to evolve its offerings to meet the changing needs of Texas homeowners facing increasingly unpredictable weather patterns and the water management challenges they bring.
