

Go Industries Expands Offerings With New Winch-Ready Grille Guard for Trucks

September 09, 2025

Richardson, TX - September 09, 2025 -
Go Industries Inc., a truck equipment manufacturer, has announced a new addition to its product lineup. The company expanded its range of grille guards to include commercial-grade systems with integrated winch capabilities. This new product aims to meet the diverse demands of its clients, reflecting Go Industries' ongoing commitment to creating products that improve the function and protection of vehicles.

Go Industries Inc. is a manufacturer of law enforcement equipment and custom manufacturing solutions, operating since 1978. The company is based in Richardson, Texas, with a warehouse also in Clifton, TX. All products are made in the USA.

The introduction of the winch grille guard for trucks marks an important development for the company. This system stands out due to its modular design, allowing users to add a winch carrier and brush guards. It's built with durability in mind, featuring 5/16 laser-cut steel uprights and 2.5-inch 16-gauge steel cross tubes. The design ensures that the system can withstand tough conditions, providing reliable protection for truck

enthusiasts and professionals.

A representative of Go Industries expressed their enthusiasm for the launch, saying, "The launch of this commercial-grade integrated winch grille guard system is an exciting step forward for Go Industries. We have focused on creating a product that not only provides unmatched protection but can also be customized to meet the specific needs of our customers. Our grille guard systems are durable and customizable, and they underscore our dedication to maintaining high standards of quality and craftsmanship."

The development of the grille guard system pays significant attention to ease of installation. Each system includes custom heavy-duty mounting brackets designed for maximum strength, catering to the practical needs of customers. Additionally, optional brush guards provide extra protection for headlights against debris and off-road brush. The system also offers 9.5 or 16.5 winch carrier options, adding to its versatility for various uses.

A three-year warranty backs each grille guard. This warranty covers materials, workmanship, and finish. Proudly made in the USA, these products are locally manufactured and with high-quality standards.

Go Industries doesn't only focus on grille guards. The company offers a wide array of truck accessories, including medium-duty grille guards, pro series bumpers, airflow tailgates, headache racks, mud flaps, and steps. These products deliver comprehensive solutions that blend practical enhancements with aesthetic appeal.

The representative of Go Industries continued, "Our dedication to enhancing vehicle functionality while ensuring added protection is central to everything we produce. We are proud to expand our offerings with the new commercial-grade winch grille guard systems. This addition reinforces our capability to deliver the most practical and robust solutions for truck enthusiasts and professionals alike."

Beyond truck-specific products, Go Industries serves the law enforcement community by providing specialized equipment for Chevrolet, Dodge, and Ford vehicles. These products, which include skid plates and other necessary accessories, are designed to enhance the safety and utility of law enforcement vehicles.

Furthermore, Go Industries offers custom manufacturing options, allowing customers to tailor products to their distinct needs. Customization allows the company to meet diverse customer demands and stay customer-oriented.

Go Industries continues to grow and innovate its offered services and products. For more details on the new

winch grille guard for trucks and other products, interested individuals should visit the company's website.
