

CLT Car Affordable Towncar Service Expands Fleet and Enhances Booking Technology

October 23, 2025

CHARLOTTE, NC - October 23, 2025 -
CLT Car Affordable Towncar Service (Also known as Affordable Towncar Service, CLT Car, & Charlotte Specialty Transportation) has upgraded its vehicle fleet and online booking technology to better serve the growing Charlotte metropolitan area and surrounding regions of North and South Carolina. The transportation company has introduced newer luxury sedans, SUVs, and Sprinter vans alongside improved booking systems and flight-tracking tools to enhance customer convenience for both business and leisure travelers.

The fleet enhancement comes as Charlotte continues to experience significant growth in both corporate relocations and tourism, driving increased demand for professional ground transportation services. The company's expanded vehicle options now include late-model luxury sedans for executive travel, spacious SUVs for families and small groups, and Sprinter vans capable of accommodating larger parties for corporate events and special occasions.

"The Charlotte region has seen tremendous growth over the past several years, and we recognized the need

to expand our capabilities to meet evolving customer expectations," said a representative from CLT Car Affordable Towncar Service. "Our fleet upgrades and technology improvements allow us to provide more reliable, efficient service while maintaining the affordable pricing that has been central to our mission."

The technology enhancements include an updated online reservation system that streamlines the booking process and provides real-time confirmation. The company has also implemented advanced flight-tracking capabilities that automatically monitor arrival and departure times, allowing chauffeurs to adjust pickup schedules accordingly and minimize wait times for airport transfers.

CLT Car Affordable Towncar Service provides transportation throughout Charlotte and extends service to Cornelius, Gastonia, Spartanburg, Concord, Rock Hill, and Kannapolis. The company operates around the clock, offering airport transfers to and from Charlotte Douglas International Airport, as well as transportation for corporate meetings, weddings, proms, sporting events, medical appointments, and out-of-town trips.

The upgraded fleet maintains the company's commitment to safety and reliability, with all vehicles undergoing regular maintenance and inspection. Professional chauffeurs receive ongoing training in defensive driving techniques, customer service, and local area knowledge to ensure passengers experience safe, punctual, and comfortable transportation.

As a Charlotte limo service provider, the company has built its reputation on dependable service and competitive rates over years of operation in the region. The recent investments in both vehicles and technology represent a significant commitment to maintaining high service standards while adapting to the changing needs of the Charlotte market.

The company also offers specialized transportation solutions including handicap-accessible vehicles and luxury motor coaches for large group events. All services can be reserved through the enhanced booking system, with customer service representatives available to assist with special requests and last-minute reservations.

CLT Car Affordable Towncar Service operates as part of Charlotte Specialty Transportation, serving the greater Charlotte area with a focus on combining luxury transportation amenities with accessible pricing. The company maintains a diverse fleet to accommodate various transportation needs, from individual business travelers to large group transfers for special events throughout North and South Carolina.
