

# Pipeworks Expands Digging Expertise for Department of Transportation Projects

*September 03, 2025*

September 03, 2025 -
Pipeworks Plumbing and Construction has officially announced its increased focus on providing Digging for Department of Transportation (DOT) services. Based in the Charlotte Metropolitan Area, North Carolina, the company is known for its work on public infrastructure and roadwork projects. Offering reliable and compliant excavation solutions, this move solidifies its role as an active contributor to important infrastructure projects across various locations in North Carolina.

With these enhanced DOT services, Pipeworks Plumbing and Construction aims to support public works while making sure every operation meets regulatory standards. They use advanced excavation machinery and GPS-guided technology to work with precision, minimize disruptions, and uphold strong safety practices.

"We are thrilled to expand our involvement with the Department of Transportation," said Michael Herndon, CEO of Pipeworks Plumbing and Construction. "Our team is fully committed to delivering top-tier excavation services that contribute significantly to public infrastructure. We understand the importance of adhering to strict regulations and ensuring the safety and efficiency of all our projects."

Beyond their DOT excavation focus, Pipeworks Plumbing and Construction remains involved in other areas of plumbing and construction. They cover a wide array of needs, from sewer maintenance and drainage services to various Pipework installations. Their sewer and drain plumber services provide extensive information on the variety of plumbing solutions offered by the company at their website. Handling everything from commercial plumbing to using advanced tools for accurate repairs, the company is equipped to tackle a broad range of construction tasks.

"In advancing our DOT excavation capabilities, we continue to leverage our broad skill set in plumbing and construction services," Herndon explained. "Our expertise extends beyond one area, allowing us to provide comprehensive solutions that cater to the varied needs of our clients. Each project receives our full commitment to quality and efficiency."

The company serves multiple areas across North Carolina, including Asheville, Hickory, Charlotte, and Boone, among others. This wide reach helps them better support local infrastructure needs, ensuring projects are timely and effective.

By continuing their service to the community and involvement in significant transportation projects, Pipeworks Plumbing and Construction plays an essential role in North Carolina's development. Their commitment to providing excellent service means they are more than just a construction company; they are a key player in enhancing the state's infrastructure.

For questions or more information about their services or expansion plans, those interested can contact the company directly at (828) 528-7885. The team at Pipeworks Plumbing and Construction is ready to provide more details on how they can contribute to future construction projects.
