All In Solutions Counseling Center in Boynton Beach released a 2024 Client Satisfaction Report. The report, available at the center's website, showcases how an evidence-based approach can lead to strong program completion rates, reduced anxiety and depression scores, and high overall satisfaction. All In Solutions is a counseling center focused on transparency and data-driven care in addiction treatment.

Clients enrolled in the Partial Hospitalization (PHP) and Intensive Outpatient (IOP) programs in 2024 averaged a 76% completion rate. This rate is higher than the national average of around 26% for outpatient programs.

Client satisfaction mirrors these high completion rates. 93% of clients expressed overall satisfaction with their treatment. Key aspects like therapist quality hit a 96% approval rate, and treatment planning achieved 97%.

The report also highlights clients' progress in mental health, a crucial part of All In Solutions' treatment

programs. Clients battling addiction often face depression and anxiety. In these areas, clients' PHQ-9 depression scores dropped significantly from 6.51 at intake to 3.94 at discharge. Their GAD-7 anxiety scores also improved, decreasing from 7.36 to 4.22. These changes indicate a 40-45% improvement, reflecting advancements in mental health alongside sobriety.

On average, clients in Boynton Beach stayed engaged for 31.4 days, offering them a structured environment conducive to sustainable recovery.
