

All In Solutions Counseling Center Cherry Hill Expands Addiction Treatment Programs

September 15, 2025

CHERRY HILL, NJ - September 15, 2025 - PRESSADVANTAGE -

All In Solutions Counseling Center Cherry Hill has expanded its comprehensive outpatient addiction treatment services to better serve individuals seeking recovery throughout South Jersey. The Joint Commission-accredited facility now offers an enhanced continuum of care that includes Partial Hospitalization Programs (PHP), Intensive Outpatient Programs (IOP), and standard outpatient therapy services designed to support recovery while allowing clients to maintain their personal and professional responsibilities.

The expansion addresses the growing need for flexible, evidence-based addiction treatment options in the region. All In Solutions Counseling Center Cherry Hill is accredited by the Joint Commission, demonstrating its commitment to maintaining the highest standards of care in behavioral health services. The facility specializes in treating various substance dependencies including alcohol, opiates, prescription drugs, cocaine, methamphetamine, and benzodiazepines.

The center's multidisciplinary clinical team develops personalized treatment plans that address both addiction and co-occurring mental health conditions through integrated dual diagnosis treatment. Clients benefit from evidence-based therapeutic modalities including cognitive behavioral therapy, trauma-focused treatment, and family therapy programs that actively involve loved ones in the recovery process.

"Our mission is to deliver addiction treatment that adapts to each individual's life. Offering PHP, IOP, and OP together gives clients the structure they need, with the flexibility they deserve, while addressing both behavioral and mental health," said Dennis Ryan of All In Solutions.

All In Solutions Counseling Center Cherry Hill programs are structured to meet varying levels of care needs. The Partial Hospitalization Program provides intensive daily treatment for individuals requiring substantial support while living in their community. The Intensive Outpatient Program balances therapeutic intervention with daily life through multiple weekly sessions focusing on relapse prevention, coping strategies, and peer support. Standard outpatient services ensure continued clinical engagement through flexible sessions tailored to maintenance and long-term recovery goals.

The facility incorporates specialized treatment tracks including faith-based recovery programs, gender-specific treatment options, and trauma-informed care. Additional therapeutic components include art therapy, yoga therapy, chronic pain addiction treatment, and an alumni support program that provides ongoing community connection after primary treatment completion.

The expansion particularly benefits South Jersey residents who previously faced barriers to accessing quality addiction treatment. By providing local, accessible care, the center reduces the need for individuals to travel long distances or enter residential facilities when outpatient treatment would be more appropriate for their circumstances.

The center accepts most major insurance providers to ensure treatment accessibility for the community. The facility operates as part of the larger All In Solutions network, which maintains multiple locations across the United States.

All In Solutions Counseling Center Cherry Hill continues to accept new clients seeking recovery from substance abuse disorders. The facility's location in Cherry Hill provides convenient access for residents throughout South Jersey, including those from nearby Philadelphia and Trenton areas. The center remains dedicated to providing evidence-based, compassionate care that addresses the unique needs of each individual on their recovery journey.
