

## **Siam Legal International Launches Dedicated Cyber Crime Division with Senior Appointment**

*September 30, 2025*

Bangkok, Thailand - September 30, 2025 -

Siam Legal International has announced the launch of a dedicated Cybercrimes Division to assist both Thai citizens and foreign residents affected by internet-related crimes. The Bangkok-based law firm has appointed Khun Sivasak Naewchan as Senior Lawyer and manager of the new division to lead specialized legal services addressing the growing threat of digital crimes in Thailand.

Khun Sivasak brings more than 30 years of legal experience in commercial and corporate law, governance, compliance, and risk management to the role. His career includes service on national committees in Thailand, where he has contributed to legal policy development and anti-corruption initiatives. In his new position, he will oversee a team focused on providing legal support to victims of cybercrime and advising clients on preventive measures in the digital space.

The Cybercrimes Division will address a range of issues that continue to rise in Thailand, including fraud, embezzlement, defamation, violations of the Personal Data Protection Act (PDPA), data breaches, and identity theft. The division will represent clients in these matters while guiding individuals and businesses on strengthening their digital security and assisting with filing complaints to relevant Thai authorities, such as the

Cyber Crime Investigation Bureau (CCIB).

"The establishment of our Cybercrimes Division reflects Siam Legal's recognition of the increasing risks clients face online," said Rex Baay, spokesperson for Siam Legal International. "Our goal is to provide practical legal solutions that address both the immediate harm caused by cybercrime and the long-term need for stronger safeguards. With Khun Sivasak's extensive experience and leadership, we are positioned to deliver comprehensive support to those affected by digital crimes."

The firm's decision to create a specialized division comes as Thailand experiences a significant increase in cybercrime cases, particularly those involving financial fraud and data breaches. As cybercrime lawyers Thailand businesses and individuals increasingly rely on for protection, the new division addresses a critical gap in legal services for victims of online crimes.

The division plans to expand its team by recruiting additional litigation lawyers with expertise in online crime and digital evidence. This expansion is intended to strengthen the firm's ability to represent clients in complex cases where technology intersects with the law. The division will also develop educational resources to help clients understand their rights under Thai cybercrime legislation and the PDPA.

Siam Legal International is a full-service law firm providing legal and immigration services in Thailand for over two decades. With offices in Bangkok, Phuket, Chiang Mai, and Pattaya, the firm has experienced significant growth in 2025, adding new teams and expanding facilities to meet client demand. The firm offers comprehensive legal services including immigration, family law, business structures and setup, litigation, and property services. Through its continued development, Siam Legal remains committed to offering professional legal support to both local and international communities in Thailand.
