West Coast Tire & Services Expands Auto Repair Services to San Clemente and Ladera Ranch with Fair Pricing

April 22, 2026

San Juan Capistrano, CA - April 22, 2026 -
West Coast Tire & Services, a certified GoodYear Auto Service Center based in San Juan Capistrano, has announced the expansion of its automotive repair and maintenance services to include San Clemente, Ladera Ranch, and Rancho Mission Viejo. The expansion addresses growing demand for professional automotive services in South Orange County while maintaining the competitive pricing structure that has distinguished the company since 2006.

The expansion enables residents of these communities to access comprehensive automotive services without paying dealership prices. West Coast Tire & Services offers a complete range of automotive solutions including engine rebuilding, suspension repair, brake services, diesel maintenance, and factory-scheduled maintenance performed by ASE-certified technicians.

"Our expansion into San Clemente and the surrounding communities represents our commitment to providing

accessible, professional automotive care throughout South Orange County," said Todd, service manager at West Coast Tire & Services. "We recognized that residents in these areas were seeking alternatives to expensive dealership services, and our team is equipped to deliver the same quality work at significantly lower costs."

As a Good Year San Juan Capistrano authorized dealer, the company maintains dealer-level diagnostic equipment and technical expertise while offering more competitive pricing than traditional dealerships. The expansion brings the company's full spectrum of services to new markets, including specialized diesel repair, tire services for all vehicle brands, cooling system maintenance, and electrical system diagnostics.

The timing of this expansion aligns with increased vehicle maintenance needs as many car owners seek to extend the life of their current vehicles. Regular maintenance and timely repairs have become increasingly important for vehicle longevity and safety. The company's technicians handle both foreign and domestic vehicles, utilizing advanced automotive technology to diagnose and repair complex issues.

"When customers search for Auto Repair & Maintenance Near Me, they want reliability, expertise, and fair pricing," added Todd. "Our expansion ensures that more South Orange County residents can access these essential services without the premium pricing typically associated with dealership service departments."

The company's service offerings encompass routine maintenance such as oil changes, tire rotations, and brake inspections, as well as complex repairs including transmission service, engine diagnostics, and suspension overhauls. Each service is performed using manufacturer-recommended parts and procedures, ensuring vehicles maintain their warranty coverage while receiving professional care.

West Coast Tire & Services operates from its facility in San Juan Capistrano, where it has established a reputation for honest, professional automotive service over nearly two decades. The company works with extended warranties and offers financing options to make automotive repairs more accessible. Their ASE-certified technicians undergo continuous training to stay current with evolving automotive technology and repair techniques.

The expansion to these additional service areas reflects the company's growth strategy and response to customer demand throughout South Orange County. As a certified GoodYear Auto Service Center, the company combines the resources of a national network with the personalized service of a local business, providing comprehensive automotive solutions for all makes and models.
