

West Coast Tire & Services Expands Auto Repair and Maintenance Services to San Clemente

April 22, 2026

San Juan Capistrano, CA - April 22, 2026 -
West Coast Tire & Services, a certified GoodYear Auto Service Center based in San Juan Capistrano, has announced the expansion of its automotive repair and maintenance services to include the San Clemente community. The company, which has been providing comprehensive vehicle care since 2006, now offers its full range of services to residents and businesses throughout South Orange County.

The expansion comes as the company continues to address growing demand for affordable, professional automotive services in the region. With ASE-certified technicians and state-of-the-art diagnostic equipment, the service center provides an alternative to dealership pricing while maintaining factory-standard quality.

"San Clemente residents have been asking for convenient access to our services, and we're pleased to now serve this community with the same commitment to quality and value we've provided in San Juan Capistrano for nearly two decades," said Todd, spokesperson at West Coast Tire & Services. "Our expansion allows more drivers to benefit from our competitive pricing and comprehensive maintenance programs

without the premium costs typically associated with dealership service departments."

The company offers a complete range of automotive services, including engine diagnostics, brake repair, suspension work, tire services, and factory-scheduled maintenance. As a certified Good Year San Juan Capistrano dealer, the service center provides access to a full selection of tire brands and models for passenger vehicles, trucks, and diesel vehicles.

West Coast Tire & Services distinguishes itself through transparent pricing and comprehensive service offerings. The facility handles both major and minor repairs on foreign and domestic vehicles, utilizing advanced diagnostic technology to accurately identify and address vehicle issues. Services range from routine maintenance such as oil changes and tire rotations to complex repairs including engine rebuilding and transmission service.

"Our goal has always been to provide dealership-quality service at independent shop prices," added Todd. "With our expansion, we can now deliver that value proposition to a broader customer base while maintaining the personalized service that has defined our business."

The company's technicians hold Automotive Service Excellence certifications and receive ongoing training to stay current with evolving automotive technology. This expertise enables them to service newer model vehicles with complex computer systems as well as older vehicles requiring traditional mechanical repairs.

The expansion to San Clemente reinforces the company's position as a leading provider of Auto Repair & Maintenance Near Me for South Orange County residents. The service center operates with extended hours Monday through Saturday to accommodate various customer schedules and offers financing options for major repairs.

West Coast Tire & Services has built its reputation on honest, professional automotive repair and maintenance services throughout South Orange County. The company works with extended warranties and provides detailed estimates before beginning any repair work. As a certified GoodYear Auto Service Center, the facility combines the resources of a national network with the personalized attention of a local business.
