Sav-On Plumbing Introduces Community Discount Program for Teachers and First Responders

September 30, 2025

GLENDALE, AZ - September 30, 2025 -
Sav-On Plumbing, a plumbing service provider with over two decades of experience serving the West Valley community, has introduced a new community discount program offering 10 percent savings to teachers and first responders. The initiative extends special pricing to police officers, firefighters, paramedics, and educators as a gesture of appreciation for their service to the community.

The discount program comes as the company transitions under new leadership following the recent retirement of its founder. Jesse Guerrero, who has worked with the company for 20 years and brings extensive plumbing expertise, has assumed leadership responsibilities and championed the expanded discount initiative.

Details about the community discount program are available at https://sav-onplumbing.com/sav-on-plumbing-announces-new-community-discount-program/.The company has streamlined the verification process to make it simple for qualifying professionals to access their savings.

"This discount program represents our commitment to supporting those who dedicate their lives to serving,

protecting, and educating our community," said Tom Thornton, spokesperson for Sav-On Plumbing. "Teachers shape our future generations, while first responders keep our neighborhoods safe. Offering them this discount is a small way we can show our gratitude for their invaluable contributions."

The new discount complements the company's existing military discount program, broadening the scope of community members who can access reduced pricing on plumbing services. Eligible professionals can apply the discount to the company's comprehensive range of services, including water heater repair and replacement, slab leak detection and repair, toilet repair, bathroom remodeling, and preventative maintenance services.

The timing of the program launch addresses the ongoing need for affordable home maintenance services as many households face budget constraints. By offering this discount, Sav-On Plumbing aims to ensure essential plumbing repairs and maintenance remain accessible to those who serve the community. Customers can learn more about the company's services and discount programs by visiting https://sav-onplumbing.com/

"We understand that teachers and first responders often work within tight budgets while maintaining their homes," added Thornton. "This program ensures they can access professional plumbing services without compromising on quality or stretching their finances."

Sav-On Plumbing specializes in residential plumbing services throughout the West Valley area. With over seven decades of combined experience, the company provides comprehensive plumbing solutions including emergency repairs, water softener and reverse osmosis system installation, water pressure regulation, and specialized services for manufactured and mobile homes. The company utilizes advanced technology such as video camera inspections and electronic leak detection to diagnose and resolve plumbing issues efficiently. Members of their VIP Club receive priority service, special offers on preventative maintenance, and advance notice of promotions.
