

All In Solutions Counseling Center Cherry Hill Enhances Outpatient Treatment with Continuum of Care Model

September 29, 2025

CHERRY HILL, NJ - September 29, 2025 - PRESSADVANTAGE -

All In Solutions Counseling Center Cherry Hill has strengthened its comprehensive addiction recovery services by implementing an enhanced continuum of care model that seamlessly transitions clients from inpatient detoxification through various levels of outpatient therapy. The Joint Commission-accredited facility near Philadelphia emphasizes structured coordination between treatment phases to help clients maintain recovery momentum during critical transition periods.

The center's integrated approach addresses a common challenge in addiction recovery where clients often struggle when moving from intensive residential care to less structured outpatient settings. By providing Partial Hospitalization Programs (PHP), Intensive Outpatient Programs (IOP), and standard outpatient services within a single coordinated framework, the facility ensures clinical consistency throughout the recovery journey.

"Recovery thrives when clients feel supported at each level?by offering seamless transitions, we help maintain confidence, structure, and clinical consistency," said Shannon Donnachie, Clinical Program Manager, LSW at All In Solutions Counseling Center Cherry Hill.

All In Solutions Counseling Center Cherry Hill programs include PHP services that provide intensive treatment while allowing clients to live off-site, and flexible IOP options that enable individuals to maintain personal responsibilities during recovery. The center also offers specialized components such as faith-based recovery, integrated family therapy, trauma-focused treatment, and holistic wellness services such as yoga therapy and art therapy.

The center's PHP program operates as a bridge between residential and outpatient care, providing intensive clinical support while allowing clients to begin reintegrating into their communities. The IOP level offers additional flexibility, enabling clients to attend treatment sessions while maintaining work, school, or family commitments. This graduated approach helps individuals develop coping skills and confidence at each stage of recovery.

Tailored treatment plans ensure that each client's unique needs are addressed throughout their recovery journey. The center treats various substance use disorders, including alcohol, cocaine, methamphetamine, heroin, opiates, prescription drugs, and benzodiazepine addictions. Additionally, dual diagnosis treatment addresses co-occurring mental health conditions, recognizing the complex relationship between addiction and mental health.

The environment at All In Solutions Counseling Center Cherry Hill supports recovery through structured daily schedules that incorporate various therapeutic approaches, treating the whole person?mind, body, and spirit. The facility provides sober living housing options and transportation services to and from treatment, removing common barriers that might otherwise interrupt care continuity.

The facility's clinical team includes licensed social workers, counselors, and medical professionals who coordinate care across all treatment levels. This multidisciplinary approach ensures that therapeutic interventions, medication management when appropriate, and support services remain consistent as clients progress through different care levels.

All In Solutions Counseling Center Cherry Hill has provided high-standard addiction treatment care for over a decade. The center maintains locations in Cherry Hill, New Jersey, as well as facilities in Boynton Beach and West Palm Beach, Florida, and Simi Valley, California. The organization's commitment to evidence-based treatment methods and comprehensive support services has established it as a trusted resource for

individuals and families affected by substance use disorders in the greater Philadelphia and southern New Jersey regions.
