October 07, 2025

BOYNTON BEACH, FL - October 07, 2025 -
All In Solutions Counseling Center has expanded its faith-based addiction treatment program to meet increasing demand from individuals seeking spiritual guidance alongside clinical care for substance use disorders. The comprehensive program, led by Pastor Daniel Cornide, integrates traditional evidence-based therapies with Christian principles to address addiction through a bio-psycho-social-spiritual model.

The expanded program combines medical supervision, individual and group therapy, and 12-step support with spiritual components including Bible study, prayer sessions, and spiritual mentoring. This integrated approach addresses not only the physical and psychological aspects of addiction but also the spiritual dimensions that many individuals identify as central to their recovery journey.

"Recovery rooted in both spiritual and clinical foundations offers a deeply transformative path toward lasting wellness," said Pastor Daniel Cornide, who leads the faith-based program at the center. Pastor Cornide

(better known as, "Pastor Dan" to his clients) brings years of ministry experience and affiliations with numerous faith-based organizations to guide individuals through their recovery process.

All In Solutions Counseling Center is located in Boynton Beach, FL, and offers multiple levels of care within its faith-based track, partial hospitalization (PHP), intensive outpatient programs (IOP), and outpatient programs (OP). The center treats various substance use disorders, including alcohol, cocaine, methamphetamine, heroin, opiates, prescription drugs, and benzodiazepine addictions.

The faith-based recovery program operates alongside the center's other specialized services, including integrated family therapy, trauma-focused treatment, and alumni support programs. This comprehensive approach ensures that individuals receive personalized care that addresses their unique needs and circumstances while incorporating their spiritual beliefs into the healing process.

All In Solutions Counseling Center understands that recovery is not one-size-fits-all. By expanding their faith-based program, they strive to provide individuals with treatment options that align with their personal beliefs and values, which may enhance engagement and outcomes in recovery.

The program utilizes evidence-based therapeutic modalities such as Cognitive Behavioral Therapy and Eye Movement Desensitization and Reprocessing, while incorporating spiritual practices like prayer, meditation, and scripture study. This dual approach helps individuals develop both clinical coping strategies and spiritual resilience to maintain long-term sobriety.
