

All In Solutions Counseling Center Cherry Hill Expands Holistic Therapy Options for Comprehensive Addiction Treatment

October 10, 2025

CHERRY HILL, NJ - October 10, 2025 -
All In Solutions Counseling Center Cherry Hill has expanded its comprehensive addiction treatment programs to include an enhanced array of holistic therapies, integrating yoga, meditation, acupuncture, massage therapy, and chiropractic care into its evidence-based treatment protocols. The New Jersey-based addiction treatment center, accredited by the Joint Commission, now offers these complementary modalities alongside its traditional clinical services to address the multifaceted nature of substance abuse recovery.

The expansion reflects a growing recognition in the addiction treatment field that recovery extends beyond traditional therapy sessions to encompass physical, emotional, and spiritual healing. These holistic approaches complement the center's existing evidence-based treatments, including partial hospitalization programs (PHP), intensive outpatient services (IOP), and outpatient programs (OP).

"Healing is multifaceted. By integrating holistic modalities, we support clients in discovering sustainable paths

to wellness that extend far beyond therapy sessions," said Taylor Justin, Group Facilitator, SW at All In Solutions Counseling Center Cherry Hill. The integration of these therapies aims to empower clients with healthier routines and enhanced emotional resilience throughout their recovery journey.

All In Solutions Counseling Center Cherry Hill's programs now incorporate yoga therapy and meditation practices designed to help clients develop mindfulness skills and manage stress without substances. Acupuncture services address physical discomfort and withdrawal symptoms, while massage therapy and chiropractic care support the body's natural healing processes during recovery. These modalities work in conjunction with the center's trauma-focused therapy, family therapy programs, and specialized tracks for men's and women's rehabilitation.

The center maintains its commitment to individualized treatment planning, with each client receiving a customized combination of clinical interventions and holistic therapies based on their specific needs and recovery goals. The expanded offerings complement existing specialized programs, including faith-based treatment options, dual diagnosis treatment for co-occurring mental health conditions, and medication-assisted treatment protocols.

The holistic approach enriches the recovery experience by providing clients with practical tools they can utilize in daily life after completing treatment. This integrative model recognizes that addiction recovery at All In Solutions Counseling Center Cherry Hill involves rebuilding all aspects of an individual's life, not just addressing substance use behaviors.

All In Solutions Counseling Center operates as part of a behavioral health organization with facilities across multiple states. The Cherry Hill location, situated near Philadelphia and Trenton, provides a full continuum of care ranging from transporation plans from medically supervised detoxification through their outpatient programming. The center's multidisciplinary team includes medical professionals, licensed therapists, and certified holistic practitioners who collaborate to deliver comprehensive care.

The facility continues to accept various insurance plans and offers assessment services to determine the most appropriate level of care for individuals seeking treatment. The integration of holistic therapies represents an evolution in the center's approach to addiction treatment, acknowledging that sustainable recovery requires attention to physical wellness, emotional balance, and spiritual growth alongside clinical intervention.
