

Family Tradition Sport Fishing Announces Enhanced Deep Sea Fishing Charters with Expanded Package Options

September 25, 2025

FORT LAUDERDALE, FL - September 25, 2025 -
Family Tradition Sport Fishing in Fort Lauderdale has announced an expansion of its charter packages to better serve anglers seeking big-game fishing experiences in South Florida waters. The company now offers four distinct trip durations ranging from four to ten hours, each designed to accommodate different skill levels and fishing objectives.

The Fort Lauderdale-based charter service has structured its offerings to provide comprehensive fishing experiences that include all necessary equipment, licensing, and amenities. The expanded package lineup addresses varying customer needs, from newcomers curious about sport fishing to experienced anglers pursuing trophy catches like marlin, sailfish, and tuna.

"We recognized that anglers have different goals when booking deep sea fishing charters in Fort Lauderdale," said Captain Richard Fairbanks. "Some want to test the waters with a shorter trip, while others

are ready to commit a full day to pursuing big game species. Our expanded packages ensure everyone can find the right fit for their experience level and fishing ambitions."

The four-hour introductory package targets those new to sport fishing, focusing on smaller species that migrate inland seasonally. Six-hour trips cover more water and target larger fish including mahi, sailfish, and tuna. Eight-hour excursions cater to those seeking their first true deep-sea fishing experience, while the ten-hour package serves serious sport fishermen hunting swordfish, white marlin, wahoo, and sharks.

Each charter includes professional tackle and gear, bait, fish cleaning services, safety equipment, ice, and drinking water. Extended trips add complimentary snacks and beverages, with the ten-hour package including a 24-pack of the customer's preferred beverages.

The company operates from its Fort Lauderdale base at 1212 Cordova Road, extending services to Miami and West Palm Beach waters. During peak seasons, the operation also facilitates trips to Bahamian waters for blue marlin, wahoo, and tuna fishing.

Recent customer feedback reflects strong satisfaction with the charter service, which maintains a five-star rating based on 80 reviews. Clients consistently praise the crew's expertise and the quality of the fishing experience across all package options.

"The response from our clients tells us we're delivering the authentic South Florida fishing experience they're seeking," added Captain Fairbanks. "Whether someone books a half-day trip or commits to a full day on the water, our goal remains consistent: providing safe, successful, and memorable fishing adventures."

Family Tradition Sport Fishing operates year-round, accommodating both individual bookings and group charters. The company's fleet and crew specialize in locating and catching the diverse species that make South Florida waters a premier sport fishing destination. With decades of combined experience navigating local waters, the team leverages seasonal patterns and current conditions to maximize fishing success across all trip durations.
