Siam Legal International Law Firm in Thailand Expands Library Addressing Immigration and Cybercrime Legislation

October 01, 2025

Bangkok, Thailand - October 01, 2025 -
Siam Legal International, a premier legal service provider operating in Bangkok and key cities across Thailand for over 22 years, announces the expansion of its Thailand Law Library to address growing demand for accessible legal information amid evolving immigration policies and cybercrime legislation.

The comprehensive digital resource provides translated Thai laws and legal guidance covering immigration and visa regulations, corporate and commercial law, family law, property and real estate law, cybercrime and data protection, and litigation and dispute resolution. The expansion comes as Thailand implements new data privacy enforcement measures under the Personal Data Protection Act and strengthens cybercrime legislation to address rising online fraud incidents.

"As immigration and cybercrime laws continue to evolve in Thailand, we recognize the importance of making clear, accurate legal information available to the public," said Rex Baay, Spokesperson for Siam Legal International. "The Thailand Law Library reflects our mission as a Law Firm in Thailand to serve not just clients, but anyone seeking reliable legal knowledge."

The library features newly translated versions of Thai laws and acts, providing essential resources for non-Thai speakers navigating legal requirements. Recent additions include comprehensive coverage of anti-trafficking legislation, arbitration acts, and conflict of law provisions. The platform also addresses contemporary legal challenges, such as phishing scams, romance fraud, and online scam prevention measures recently implemented by Thai authorities.

Siam Legal International developed the resource in response to increasing complexity in Thai legal frameworks affecting foreign investors, expatriates, and international businesses. The library categorizes information into Constitutional Law, Civil and Commercial Code, Criminal Code, Administrative Law, and Foreign Related Laws, enabling users to locate relevant legal information efficiently.

The expansion addresses critical areas, including the Thailand Elite Visa program, 90-day reporting requirements, marriage registration procedures, business formation structures, and property ownership regulations. Each section provides detailed explanations of the legal requirements and recent regulatory changes that affect both Thai nationals and foreign residents.

The digital platform serves multiple stakeholder groups, including expatriates requiring visa and immigration guidance, international businesses establishing operations in Thailand, individuals navigating family law matters, and property investors understanding ownership restrictions and regulations.

Siam Legal International maintains offices throughout Thailand and provides comprehensive legal services, including immigration and visa assistance, business law consultation, litigation support, and property services. The firm assists clients with document notarization, power of attorney drafting, will and estate planning, business registration, mergers and acquisitions, and dispute resolution.

The Thailand Law Library represents a significant investment in public legal education and transparency. The resource includes search functionality enabling users to locate specific laws and legal topics, links to legal publications and blogs, and regular updates reflecting legislative changes and new legal interpretations.

Siam Legal International established its practice in Thailand over two decades ago and has developed extensive expertise in Thai and international law. The firm serves domestic and international clients across multiple practice areas and maintains a reputation for providing comprehensive legal solutions adapted to Thailand's unique regulatory environment.
