

Bill Fry the Plumbing Guy Announces Service Expansion with Additional Technicians and Equipment in Leawood

September 19, 2025

September 19, 2025 -
Bill Fry the Plumbing Guy has announced an expansion of its plumbing and HVAC operations in Leawood, Kansas, adding three new service technicians and two additional service vehicles to meet increased demand for residential and commercial plumbing services. The expansion enables the company to reduce average response times from 48 hours to 24 hours for non-emergency calls and provides same-day service availability for urgent repairs.

The service expansion addresses a 35 percent increase in service requests from Leawood homeowners over the past six months, according to company records. The additional resources allow Bill Fry The Plumbing Guy Leawood to handle a broader range of simultaneous service calls, including drain cleaning, water heater installations, sewer line repairs, and HVAC maintenance.

"The addition of new technicians and equipment represents a direct response to customer demand in the

Leawood market," said Bill Fry, owner of the plumbing service company. "With these expanded capabilities, we can now schedule 40 percent more daily service calls than our previous capacity allowed. This means residents experiencing plumbing emergencies or requiring routine maintenance can receive service more quickly."

The expansion includes investment in specialized equipment for trenchless sewer repair technology, which reduces excavation requirements by up to 70 percent compared to traditional methods. The company has also added hydro jetting equipment capable of clearing drain blockages at 4,000 PSI and video inspection systems that provide real-time diagnostics of underground pipe conditions.

Plumbers Leawood residents contact for service now have access to an expanded inventory of replacement parts, reducing the need for return visits by an estimated 25 percent. The company maintains certification from the Better Business Bureau and employs technicians licensed by the Kansas State Board of Technical Professions.

The expanded operation covers a service area encompassing 15 square miles around Leawood, with capabilities including water heater replacement for tank and tankless models, drain and sewer line maintenance, water filtration system installation, and complete HVAC system servicing. The company reports completing an average of 1,200 service calls annually in the Leawood area.

New diagnostic capabilities include acoustic leak detection equipment that can identify hidden water leaks without wall removal and thermal imaging cameras for detecting HVAC efficiency issues. These tools enable technicians to diagnose problems with 90 percent accuracy on initial visits, according to company service data.

The expansion coincides with new Kansas regulations requiring annual backflow prevention device testing for commercial properties, creating additional demand for certified plumbing services in Leawood. The company's technicians hold backflow prevention assembly tester certifications required for compliance inspections.

Bill Fry the Plumbing Guy operates Monday through Friday from 7 a.m. to 6 p.m., with emergency service availability outside regular hours. The company provides financing through third-party lenders for projects exceeding $2,500, with approval rates averaging 78 percent for qualified applicants. Service calls cover residential properties, small businesses, and property management companies throughout the Leawood service area.
