

48hourslogo Launches Premade Logo Store to Complement Its Logo Contest Model, Offering Businesses Faster and More Flexible Branding Options

September 18, 2025

September 18, 2025 - PRESSADVANTAGE -

48hourslogo, one of the world's leading crowdsourced logo design platforms, today announced the launch of its new Premade Logo Store, expanding its services beyond logo contests to provide businesses with faster, more flexible branding options. The new store gives entrepreneurs and small businesses access to thousands of professionally designed logos available for instant purchase and customization.

Since its founding in 2009, 48hourslogo has completed more than 60,000 logo design contests, connecting business owners with a global community of freelance designers. Its signature contest model has been celebrated for affordability, creativity, and fast turnaround. With the introduction of the Premade Logo Store, the company is adding a new dimension to its offerings—one that caters to businesses that need professional logos immediately without running a contest.

The Premade Logo Store is designed to complement—not replace—the popular contest model. While contests

allow business owners to receive dozens of custom logo submissions from designers competing for a prize, the new store offers a ready-made alternative.

Clients can browse a curated selection of logos, organized by industry and style, and instantly purchase the design that fits their brand vision. Each logo is sold only once, ensuring exclusivity, and includes professional customization to match the buyer's company name and colors.

"Our goal has always been to make professional logo design accessible to everyone," said Chris Chen, Founder of 48hourslogo. "With contests, clients enjoy creativity through competition. With the new store, they gain speed and simplicity. Together, these options provide the flexibility businesses need to build their brand on their terms."

The launch introduces a wide range of benefits for entrepreneurs and small businesses. **Instant Access:** Choose from thousands of ready-to-use professional logos across industries such as technology, retail, hospitality, health, and more. **Affordable Pricing:** Premade logos start at competitive rates, making them a cost-effective option for startups with limited budgets. **Exclusive Ownership:** Once purchased, each logo is removed from the marketplace, ensuring that no two businesses share the same design. **Custom Edits Included:** Designers provide modifications such as name changes, color adjustments, and minor tweaks to personalize the chosen logo. **Seamless Experience:** Integrates smoothly with 48hourslogo's existing platform, allowing users to explore both contests and premade options in one place.

The introduction of the Premade Logo Store responds to a growing demand for speed and flexibility in branding. Many entrepreneurs today are launching businesses, apps, and online stores at an accelerated pace, and they need logos that can keep up.

"Starting a business is already challenging enough," said Amanda Brooks, founder of a boutique coffee shop and early user of the Premade Logo Store. "I needed a professional logo within 24 hours to launch my website. The store gave me exactly what I needed—beautiful designs, instant purchase, and a quick turnaround. It saved me time and stress."

The new store not only benefits clients but also creates new revenue streams for freelance designers. In addition to participating in contests, designers can now upload original logos to the marketplace and earn income from direct sales.

"This model gives our design community more flexibility to showcase their creativity," added Chen. "Designers can monetize unused concepts from contests or create unique designs specifically for the store, knowing they'll reach a global audience of business owners."

The launch of the Premade Logo Store reflects 48hourslogo's commitment to innovation and continuous growth. From pioneering one of the first 48-hour logo contest models to now offering instant logo purchases, the company has consistently adapted to meet the needs of modern businesses.

"As we celebrate completing over 60,000 logo contests, this new store marks another milestone in our journey," said Chen. "We're not just giving businesses logos—we're giving them choices. Whether they want the excitement of a contest or the convenience of a premade design, 48hourslogo is here to deliver."

Founded in 2009, 48hourslogo is a crowdsourced logo design marketplace that connects businesses with a global community of freelance designers. Known for its unique 48-hour contest model, the platform has completed over 60,000 logo contests and awarded millions in prize money to designers worldwide. With the launch of its Premade Logo Store, 48hourslogo now offers both contest-based and instant-purchase logo solutions, making professional branding more accessible than ever.
