

Cornerstone Homebuyers Reaches 16-Year Milestone with Florida Cash Home Buying Operations

September 23, 2025

MIAMI, FL - September 23, 2025 -
Cornerstone Homebuyers marked its 16th year of operations as a direct home buyer serving Florida homeowners seeking alternatives to traditional real estate sale. The Miami-based company, established in 2009, has completed over 500 residential acquisitions while maintaining its A+ Better Business Bureau accreditation.

Cornerstone Homebuyers are cash home buyers in Miami and throughout Florida, addressing a market segment that includes homeowners facing foreclosure, job loss or relocation, properties with title complications, code violations, fire damage, hurricane damage, and complex ownership situations. The milestone reflects sustained operations across other Florida's major metropolitan areas, including Orlando, Tampa, Jacksonville, Fort Lauderdale, Naples, Sarasota, and West Palm Beach. The company's direct purchase model allows property transactions to be completed within 7-30 days, compared to the 60-90 day average for conventional sales.

"We understand that selling a house can be stressful, which is why we've developed a streamlined cash offer process," said Ellie Verdura, Real Estate Consultant and Founder of Cornerstone Homebuyers. Cornerstone Homebuyers offers cash for houses through a three-step process. Property owners fill out the quick web form at https://www.cornerstonehomebuyers.com with property address and contact details, receive a no-obligation cash offer via email or phone within 24 hours, and choose a convenient closing date, based on their timeline.

The company operates on four core values: trust, commitment, compassion, and dependability. Cornerstone Homebuyers understands that selling a home is a big decision; customers deserve to feel confident that they will not be taken advantage of. The company strives to earn trust through honesty, transparency, and open communication. The team also focuses on quick and fair follow-through, making sure the complicated process is simple, efficient, and stress-free.

Cornerstone Homebuyers also understands that many homeowners are facing challenging situations, including avoiding foreclosure or financial stress, divorce, inherited property or complicated probate. The company focuses on offering understanding and solutions where customers need them most. They strive to be dependable in all aspects, giving customers peace of mind at every step.

"We've handled properties ranging from homes requiring a full remodel due to unsafe structure to probate situations and inherited properties with complex title issues," explained Verdura. "Our experience in the real estate market allows us to work with situations that would otherwise complicate traditional real estate transactions and create stress for homeowners. We buy houses that other buyers might reject."

"We focus on providing clear information about the home-selling process," Ellie Verdura continued. "Our approach is to present options so homeowners can choose what works best for their particular situation. We buy homes in as-is condition and provide fair offers without fees or closing costs. Our direct cash home buyer approach means no real estate agent commissions."

Cornerstone Homebuyers utilizes digital platforms that enable property evaluations and document processing for out-of-state owners to sell their Florida property without ever having to close in person. Using secure digital platforms, Cornerstone Homebuyers conducts virtual property evaluations through photos, videos, and records, then handles all contracts and closings through electronic document processing. This seamless system allows absentee owners to complete the entire sale remotely, saving time, eliminating travel, and ensuring a fast, hassle-free transaction.

The company maintains compliance with Florida real estate regulations and disclosure requirements. Transaction documentation includes standard purchase agreements and settlement statements processed through licensed title companies.
