

Florida Eye Specialists Expands with New Location at Fountains at St. Johns

September 23, 2025

September 23, 2025 - PRESSADVANTAGE -
15th Location to Open Mid-July, Offering Full Range of Eye Care Services

Florida Eye Specialists, the region's leading provider of advanced eye care, is proud to announce the opening of its newest location at the Fountains at St. Johns, marking its 15th location overall and 4th in St. Johns County. The new clinic, located at 75 Jaidev Road, St. Johns, FL 32259, is scheduled to begin accepting patients in mid-July.

The state-of-the-art facility reflects Florida Eye Specialists' ongoing commitment to expanding access to comprehensive, high-quality eye care in Northeast Florida. The location will offer the full range of services, including general ophthalmology and advanced laser cataract surgery procedures, as well as LASIK consultations, glaucoma management, retina care, and dry eye treatment, providing a complete spectrum of ophthalmic services for patients of all ages.

“Expanding to Fountains at St. Johns allows us to better serve one of the fastest-growing areas in our region with the full spectrum of eye care services our patients have come to trust,” said Dr. Amit Chokshi, ophthalmologist and partner at Florida Eye Specialists. “Our mission has always been to provide convenient access to expert care, and this new location helps us continue that promise.”

The new office will be staffed by several of Florida Eye Specialists’ leading physicians, including Dr. Maida, Dr. Hasan, Dr. Chokshi, Dr. Guier, and Dr. Riordan, who will rotate to the Fountains at St. Johns location. Additionally, two new team members will be hired internally to support operations, while the remainder of the staff will rotate from other established locations.

The new clinic is equipped with the latest diagnostic technology, including OCT imaging and advanced visual field testing equipment, ensuring precise assessments and personalized treatment plans for every patient.

Northern St. Johns County continues to experience rapid growth, attracting roughly 11,600 new residents in 2024, bringing the county’s population to around 334,928—a nearly 3.6% increase in just one year—and projected to reach 346,000 by the end of 2025.

This expanding community, as one of Florida’s fastest-growing counties, places heightened demand on medical services, especially specialized eye care. The new Florida Eye Specialists office at Fountains at St. Johns ensures residents gain timely access to comprehensive ophthalmology and optometry services close to home, helping meet both current and future healthcare needs.

Patients will also benefit from Florida Eye Specialists’ patient education programs and community outreach initiatives, aimed at promoting eye health awareness and preventative care throughout St. Johns County.

To learn more about Florida Eye Specialists or to make an appointment, patients can call (904) 564-2020 or visit www.floridaeyespecialists.com.
