Anthem Self Storage Introduces Full Range of Moving Supplies

September 25, 2025

September 25, 2025 -
Anthem Self Storage, located conveniently along SE Everett Mall Way, has expanded its services by offering a full range of moving supplies to better support residents and businesses in Cascade View. Already recognized for secure, temperature-controlled storage solutions, the facility now provides high-quality packing materials designed to simplify relocation, renovation, and storage needs, helping customers manage every stage of moving more efficiently.

This expansion addresses a common challenge for local residents, who previously needed to visit multiple retailers to gather boxes, tape, bubble wrap, and specialty containers. By centralizing these resources on-site, Anthem Self Storage creates a more efficient and convenient experience for customers managing moves or storage transitions. The initiative comes in response to growing inquiries about supply access, customer convenience, and the logistical demands associated with both short-term and long-term storage solutions.

Available materials include various box sizes, packing paper, bubble wrap, mattress covers, furniture pads, tape, and other essential items. Customers can purchase supplies directly from the facility during regular office hours. This option is particularly valuable for packing delicate or high-value items such as electronics, glassware, framed artwork, or upholstered furniture, where proper materials can prevent accidental damage even in climate-controlled storage, providing peace of mind during transitions.

The benefits extend to homeowners, renters, and business customers alike. Residential storage needs often spike during life events like buying or selling a home, transitioning between leases, or home renovations. Reliable access to moving supplies helps families stay organized, reduce stress, and avoid unnecessary delays caused by insufficient materials or last-minute trips to multiple stores.

Small and medium-sized businesses in Cascade View also gain from this service. Many rely on off-site storage for seasonal inventory, marketing materials, or equipment. Reinforced boxes, file cartons, and protective padding help businesses manage inventory securely while minimizing losses or damage. Anthem

Self Storage ensures these supplies meet commercial standards to fully support local enterprises, making storage solutions more practical and dependable for everyday business operations.

Convenience is a key factor. Located near Interstate 5 and Highway 526, the facility is easily accessible to Cascade View and surrounding neighborhoods. Customers can consolidate supply purchases and storage trips, saving valuable time, effort, and resources while reducing moving complexity. On-site availability also supports same-day moves, emergency relocations, and self-managed storage solutions.

Seasonal demand trends influenced this expansion. Spring and summer are peak moving periods in Snohomish County, and access to supplies can often be limited. By maintaining inventory year-round, Anthem Self Storage offers a reliable alternative to third-party or online suppliers. Specialty boxes for mirrors, lamps, and wardrobes, along with heavy-duty tape, reflect the practical needs and preferences of the local community.

Staff support further enhances the service. Knowledgeable and friendly personnel are available six days a week to help customers carefully select materials, optimize storage space, and protect fragile or valuable items. This personalized guidance greatly benefits first-time movers, busy families, and those unfamiliar with proper packing best practices.

Operating in Everett since 2019, Anthem Self Storage is part of the West Coast Self-Storage network and is widely known for safety, convenient access, flexible leases, and responsive service. Expanding moving supply availability underscores the facility?s ongoing commitment to consistently supporting residents and businesses in Cascade View, offering both ample space and practical resources for smoother, more organized, efficient, and stress-free transitions.
