Williams and Sons Custom Construction Expands Services to Include Home Renovation and Addition Solutions

September 30, 2025

CASSVILLE, MO - September 30, 2025 -
Williams and Sons Custom Construction and Design, a family-owned custom home builder serving for over 50 years, has expanded its service offerings to include comprehensive home additions and renovation solutions for existing homeowners throughout the region.

The expansion responds to increasing demand from residents in Monett, Golden, Eagle Rock, Shell Knob, and Cassville who seek to modify their current homes rather than relocate. The company, which previously focused primarily on new custom home construction, now provides full-scale renovation services, including kitchen and bathroom remodels, room additions, second-story expansions, and complete home renovations.

"We recognized that many families in Southwest Missouri have deep roots in their communities and want to stay in their current homes while adapting them to meet changing needs," said Trevor, a Spokesperson for Williams and Sons Custom Construction and Design. "Our expansion into renovations allows us to bring the

same quality craftsmanship and personalized service we're known for in custom home building to homeowners looking to transform their existing spaces."

The company's approach to renovations mirrors its established custom home building methodology. Williams and Sons Custom Construction Custom Home Builder maintains its hands-on approach with owners present on-site to oversee projects and ensure quality standards are met. Each renovation project begins with a free consultation where homeowners can discuss their vision, understand the scope of work, and receive detailed timeline and investment information.

"Our design team works closely with each client to create renovation plans that not only meet their immediate needs but also enhance the long-term value and functionality of their homes," added Trevor. "Whether someone needs an additional bedroom for a growing family or wants to modernize their kitchen, we approach each project with the same attention to detail that has defined our custom home building for five decades."

The company's renovation services complement its existing custom home and new construction offerings, providing Southwest Missouri residents with a comprehensive range of residential building solutions. Williams and Sons maintains its commitment to hitting project timelines, maintaining clean job sites, and keeping clients informed throughout the entire renovation process.

The expansion leverages the company's existing in-house design capabilities to provide clients with detailed renovation plans and architectural modifications. Williams and Sons Custom Construction Architectural Design services enable homeowners to visualize their renovation projects before construction begins, ensuring the final result aligns with their expectations.

Williams and Sons Custom Construction and Design is a locally-operated custom home builder based in Southwest Missouri. With over 50 years of experience, the company specializes in custom homes, new construction, and now home additions and renovations. Known for their hands-on approach and commitment to client communication, the company provides in-house design services and maintains a presence throughout Southwest Missouri, serving communities including Monett, Golden, Eagle Rock, Shell Knob, and Cassville.
