

Satisfied Customer Features Review of Jenaluca Herb Scissors As Perfect For Cutting Cilantro

March 03, 2016

March 03, 2016 -

Purcellville, VA - Jenaluca has recently released a product on the number one online marketplace Amazon. The product is called Stainless Steel Herb Scissors and it is seen by customers as a great way to cut and chop herbs and vegetables in the kitchen. Recently, one satisfied customer Gina expressed her satisfaction with the quick way she was able to prepare cilantro. Gina did this by making a review of the product on Youtube.

Gina was very impressed with the design of the herb scissors which sports five blades on each side. She stated, ?I want to tell you about this amazing product that I bought on Amazon the other day. It is my Jenaluca Herb Scissors. Now, this product is like simply amazing. Ok so this is its protective cover... and guess what? When I remove this tada! It has five blades. So this just makes everything so much easier. Cutting up my herbs is done five times faster because it has five blades.?

The Youtube reviewer, Gina, then went into a demonstration of cutting up an example of a herb, cilantro. She

showed how easy it was to chop the cilantro and make it look like it was done by a professional. She remarked, ?I?ll just fold it to make the chopping process easier, and just chop. If I want it to be double chopped I just run the scissors through it again. Simple and easy.? The herbs produced from the demonstration were finely chopped.

Afterwards, Gina displayed how to get all of the herb out of the scissors. The protective cover she previously mentioned doubles as a cleaning comb. The cover is made from hard plastic and designed with prongs on the end so that it can fit into the blades. This design is convenient to allow the cleaner to scrape any elements of herbs left over in the blades.

Gina mentioned that she loved to cook and would recommend the herb scissors to everyone. She stated, ?This is a product that I believe every cook should have. I love to cook (and with this) there is no more chopping board and knives. No more knicking of my finger while chopping up herbs really fast because this just gets the job done.?

A representative from Jenaluca remarked, ?we?ve seen the video review of our herb scissors from Gina and love how she?s displayed the professional nature of the product. The kitchen tool is guaranteed to finely chop any type of herbs or spices. Additionally it can prepare vegetables and fruits for eating with minimal hassle and mess.?

The herb scissors is sold exclusively on the Amazon portal by the vendor Jenaluca. It is currently sold for a price below $15 and offers a 100% lifetime guarantee for refund or replacement with no questions asked.
