

## **A Plus Cleaning & Restoration Voted Best In Water Damage Restoration In Rochester**

*March 01, 2016*

March 01, 2016 - PRESSADVANTAGE -

Rochester, New York based A Plus Cleaning & Restoration has been voted the best in the Rochester area for restoration services. A small local panel has voted the company as the best in damage restoration services for their availability, quick response time, professional service, and customer service.

Scott Winseman, co-founder of the company states, "We are honored to have been voted the number one cleaning and restoration company in our region, and will continue to provide the same high level of service that our customers have received from us for years."

A+ Cleaning & Restoration is a locally owned and family operated company that offers commercial and residential services including water, fire, and flood restoration and cleanup. Other services include mold remediation, dry ice blasting, sandblasting, and emergency board-up services. The company was founded in 1997, and Winseman states, "We continue to deliver quality service with a compassion that is unlike any other company." He explains that this is likely why the company has been voted the best restoration company in the area.

The emergency board-up services for clients include window boarding as well as roof cover, winterization, structural drying and stabilization, temporary fencing, and emergency electrical and plumbing services. Winseman states that these emergency services contribute to the reputation of the company among locals, and that not all companies like A+ Cleaning offer the same type of services or emergency response, which is another reason the company has likely been voted as the best in the business.

"We couldn't be happier with the outcome," Winseman says. "I mean, we've worked toward being the best at what we do, but to actually have our customers vote us as the best; it's just a really good feeling."

Winseman says that the full range of services offered by the company is what makes them unique in their area and what keeps customers loyal to them. Those interested in learning more about the services that A Plus Cleaning offers can visit them on their official website. The company states that anyone requiring emergency services should contact them right away to ward off further damage to their home or business.
