

# Amana Care Clinic - Davenport Expands Urgent Care Services with Enhanced Digital Healthcare Options

*October 06, 2025*

DAVENPORT, Iowa - October 06, 2025 -
Amana Care Clinic - Davenport has expanded its urgent care services to provide Quad Cities residents with enhanced digital healthcare options and extended walk-in availability. The Davenport health clinic now offers comprehensive online visit capabilities that allow patients to consult with physicians and nurses remotely, complementing its existing walk-in services and online reservation system.

The expansion addresses growing demand from patients seeking convenient alternatives to emergency room visits for non-emergency medical conditions. The clinic treats a comprehensive range of minor health issues, including cold symptoms, ear infections, minor burns, cuts and lacerations, urinary tract infections, muscle injuries, and fractured bones. The facility also provides sports physicals, full laboratory services, and X-ray diagnostics.

"The introduction of our online visit feature represents a significant advancement in how we deliver healthcare to the Quad Cities community," said Moutaz Kotob, PhD, a representative of Amana Care Clinic. "Patients

can now receive medical consultations from the comfort of their homes, which is particularly beneficial for those with mobility challenges or when immediate in-person care isn't necessary. This complements our walk-in model, giving patients multiple convenient options for accessing quality medical care."

The urgent care clinic operates seven days a week with extended hours, opening at 7:00 am on weekdays and maintaining weekend availability. The walk-in format eliminates the need for appointments, reducing wait times compared to traditional healthcare settings. Patients also have the option to reserve their spot online through the clinic's reservation system, ensuring they won't lose their place in line.

The enhanced digital healthcare platform enables real-time virtual consultations with certified healthcare providers who can diagnose and treat many common conditions remotely. This service expansion comes as healthcare facilities nationwide adapt to meet changing patient preferences for accessible, technology-enabled care options. The online visit feature differs from the online reservation system by providing actual medical consultations rather than simply scheduling in-person visits.

The clinic's certified professionals utilize state-of-the-art facilities, including advanced exam rooms, procedure areas, and diagnostic equipment. The comprehensive approach to urgent care provides patients with an alternative to hospital emergency departments for non-life-threatening conditions, typically offering faster service and transparent pricing.

Amana Care Clinic - Davenport serves the broader Quad Cities region with multiple locations, including facilities in Davenport and a newer location in Muscatine, Iowa, which opened in 2022. The clinic accepts various insurance plans and focuses on providing affordable, quality medical care in a patient-friendly environment. The expansion of services reinforces the clinic's commitment to meeting the evolving healthcare needs of area residents and businesses while maintaining its core walk-in accessibility that has served the community since its establishment.
