

All In Solutions Cherry Hill Reports High Outpatient Satisfaction Rates in 2024 Client Care Assessment

November 18, 2025

CHERRY HILL, NJ - November 18, 2025 - PRESSADVANTAGE -

All In Solutions Counseling Center Cherry Hill, has released its 2024 satisfaction report, revealing that 94 percent of outpatient clients expressed satisfaction or high satisfaction with the center's individualized therapy and counseling services. The findings underscore the effectiveness of personalized treatment approaches in addiction recovery programs.

The comprehensive assessment evaluated client experiences across multiple therapeutic modalities offered at the Joint Commission-accredited facility. The report specifically examined satisfaction levels with individualized therapy plans, which incorporate cognitive behavioral therapy (CBT), dialectical behavior therapy (DBT), and family therapy components tailored to each client's unique recovery needs.

The satisfaction metrics reflect the center's commitment to flexible outpatient models that allow clients to maintain personal responsibilities while receiving intensive treatment. The facility's Intensive Outpatient Program (IOP) and Partial Hospitalization Program (PHP) provide varying levels of care intensity, enabling

clients to step down from residential treatment or begin their recovery journey at an appropriate level.

"Every client deserves a plan built for them—not a one-size-fits-all approach. These satisfaction numbers prove that our clients feel the difference," said Kelly Williams, Primary Therapist, LSW at All In Solutions Counseling Center Cherry Hill in South Jersey.

Dennis Ryan, CEO, emphasized the importance of holistic treatment approaches in achieving these satisfaction rates. "When clients feel genuinely seen and supported throughout their treatment journey, engagement increases and outcomes improve. Our diverse therapeutic offerings, from trauma-focused programs to medication-assisted treatment, ensure each individual receives care that addresses their specific circumstances," Ryan stated.

The center's outpatient services extend beyond traditional counseling to include specialized programs such as dual diagnosis treatment for co-occurring mental health conditions, gender-specific rehabilitation programs, and complementary therapies including art therapy and yoga. This comprehensive approach addresses the complex nature of substance use disorders while supporting overall wellness.

The 2024 satisfaction report findings arrive as addiction treatment centers nationwide face increasing demand for flexible, client-centered care models. The data suggests that facilities prioritizing individualized treatment planning and diverse therapeutic options achieve higher client engagement and satisfaction levels.

Recovery at All In Solutions Counseling Center Cherry Hill involves a multidisciplinary team approach, with licensed therapists, medical professionals, and support staff collaborating to deliver evidence-based treatment. The facility serves clients throughout South Jersey and the greater Philadelphia metropolitan area, providing accessible care for individuals seeking recovery from alcohol, opioid, and other substance dependencies.

All In Solutions Counseling Center Cherry Hill has several years of experience, maintaining Joint Commission accreditation throughout its service to the community. The All In Solutions as a whole organization offers a complete continuum of care, from medical detoxification through alumni support programs, ensuring clients receive appropriate support at every stage of their recovery journey. The facility's treatment programs address various substance dependencies including alcohol, opioids, stimulants, and prescription medications, while also providing specialized care for trauma survivors and individuals with chronic pain conditions contributing to substance use disorders.
