

Elite Roofing & Solar Donates New Roof to Colorado Family Facing Medical Hardship, Renewing Community Roofing Support

December 12, 2025

December 12, 2025 -
Elite Roofing & Solar, a Denver-based roofing and solar installation company, has donated a complete roof replacement to a Colorado family struggling with medical expenses and home repair needs. The donation represents the latest example of how this Colorado roofing company gives back to the community it has served since 2006.

The recipient family has called Colorado home for more than three decades. After the wife underwent surgery for serious health issues and had to leave her position tutoring young children, the family faced mounting medical bills while relying on the husband's income from multiple jobs. When their aging roof began leaking and deteriorating beyond temporary repairs, the family found themselves unable to afford the necessary replacement despite their urgent need.

A local Farmers Insurance agent familiar with the family's circumstances brought their situation to the

attention of Elite Roofing & Solar. Company owners Cody Hayes and Randy Brothers immediately recognized an opportunity to make a meaningful difference in the lives of community members, known for their own dedication to helping others through their church and neighborhood involvement.

"When we heard about this family's story and their commitment to serving others even during their own hardships, we knew we had to step up," said Cody Hayes of Elite Roofing & Solar. "Providing safe, secure shelter is at the heart of what we do every day. Being able to donate a new roof to a family that has given so much to our community despite facing their own challenges is exactly why we prioritize community involvement."

The roof donation aligns with the company's established commitment to community service. Elite Roofing & Solar regularly supports local nonprofits and community initiatives throughout Colorado, including partnerships with Volunteers of America, SafeHouse Denver, and various educational programs. The company has maintained these community partnerships for more than a decade, sponsoring events such as toy drives, turkey drives, and fundraising galas while encouraging employee volunteerism.

As one of the leading roofers in Denver, Elite Roofing & Solar has built its reputation on both professional excellence and community engagement. The company provides residential and commercial roofing services throughout Colorado, including roof replacement, repairs, storm damage restoration, and solar panel installation. With more than 350 positive reviews and recognition from the Better Business Bureau, the company has established itself as a trusted name in Colorado roofing.

The donated roof replacement will provide the family with crucial protection from the elements and eliminate a significant source of stress as they continue managing medical expenses and recovery. The project demonstrates how local businesses can create a positive impact by identifying and responding to genuine needs within their communities.

Elite Roofing & Solar continues to seek opportunities to support Colorado families and organizations through both professional services and charitable initiatives. The company maintains its commitment to faith, family, honesty, and integrity while building lasting relationships throughout the communities it serves.
