

SERVPRO of Minnetonka Announces Partnership with Minnesota Multi Housing Association

October 06, 2025

MINNETONKA, MN - October 06, 2025 -
SERVPRO of Minnetonka, St. Louis Park, Golden Valley has announced a strategic partnership with the Minnesota Multi Housing Association to provide comprehensive restoration services to property management companies and multi-family residential properties throughout the greater Minneapolis area. The collaboration aims to streamline emergency response and restoration services for association members managing apartment complexes, condominiums, and other multi-unit residential properties.

The partnership establishes SERVPRO of Minnetonka as a vendor for the Minnesota Multi Housing Association's extensive network of property managers and owners. This arrangement ensures rapid response times and coordinated restoration efforts when properties face water damage, fire damage, mold issues, or other emergency situations requiring professional remediation.

"This partnership represents a significant step forward in our commitment to serving the multi-family housing sector in Minnesota," said Scott Clemente, a spokesperson from SERVPRO of Minnetonka. "Property

managers face unique challenges when disasters strike multiple units simultaneously. Our team of 30 IICRC-certified technicians and fleet of over 15 service vehicles enables us to mobilize quickly and handle large-scale restoration projects that multi-family properties often require."

The Minnesota Multi Housing Association represents hundreds of property management companies and thousands of rental units across the state. Through this partnership, member properties gain access to priority scheduling and comprehensive damage restoration services, including water extraction, structural drying, smoke and soot cleanup, mold remediation, and complete reconstruction services when needed.

Multi-family residential properties present distinct restoration challenges compared to single-family homes. Water damage in one unit can quickly affect neighboring apartments, requiring coordinated remediation efforts across multiple living spaces. Fire and smoke damage similarly demands specialized approaches to minimize the displacement of residents and restore affected units efficiently.

SERVPRO of Minnetonka brings over 20 years of experience in the restoration industry to this partnership. As a licensed general contractor in Minnesota, the company provides end-to-end restoration services, from initial emergency response through complete reconstruction. Their comprehensive service offerings include water damage restoration, fire damage restoration, mold remediation, storm damage restoration, and specialized cleaning services such as biohazard cleanup and document restoration.

The partnership also emphasizes preventive measures and education for property managers. SERVPRO of Minnetonka plans to provide training sessions and resources to help association members identify potential issues before they escalate into major problems, potentially saving significant costs and minimizing tenant disruption.

Based in Minnetonka, Minnesota, SERVPRO of Minnetonka, St. Louis Park, Golden Valley has established itself as a leading restoration service provider in the Minneapolis-St. Paul metropolitan area. The company specializes in residential and commercial restoration services, offering 24-hour emergency response for water, fire, mold, and storm damage incidents. With a team of certified technicians and advanced restoration equipment, the company serves homeowners, businesses, and property management companies throughout Hennepin County and surrounding areas.
