

West Coast Tire & Services Expands Auto Repair Services to Larger Market in South OC

October 20, 2025

San Juan Capistrano, CA - October 20, 2025 - PRESSADVANTAGE -

West Coast Tire & Services, a certified GoodYear Auto Service Center, has announced the expansion of its automotive repair and maintenance services to include the San Clemente community. The expansion reflects the company's commitment to providing professional automotive services at competitive prices throughout South Orange County.

The company, based in San Juan Capistrano and serving the region since 2006, offers comprehensive auto repair, diesel maintenance, and tire services as an alternative to higher-priced dealership service departments. The expansion to San Clemente addresses growing demand for certified automotive services in the coastal community.

"Our expansion into San Clemente represents our ongoing commitment to making quality automotive services accessible to more drivers in South Orange County," said Todd, a spokesperson for West Coast Tire & Services. "We understand that dealership prices can be prohibitive for many vehicle owners, and

we're proud to offer the same level of expertise and certification at more competitive rates."

The expansion comes as automotive service costs continue to rise at traditional dealerships across California. Independent service centers like West Coast Tire & Services have become increasingly important for vehicle owners seeking professional maintenance without premium pricing. The company's certification as a GoodYear Auto Service Center ensures that customers receive nationally-backed service standards while supporting a local business.

As a certified Good Year San Juan Capistrano dealer and service center, the company maintains ASE-certified technicians and state-of-the-art diagnostic equipment typically found at dealership service centers. The facility provides comprehensive services, including engine rebuilding, suspension repair, brake service, radiator repair, and factory-scheduled maintenance for both foreign and domestic vehicles.

The San Juan Capistrano-based facility offers specialized diesel repair and maintenance services in addition to standard automotive services. The company's diesel expertise includes lift kit installation, specialized tire and wheel services, and comprehensive diesel engine diagnostics and repair. This specialization has made the company a regional destination for diesel vehicle owners throughout Dana Point, Laguna Niguel, Ladera Ranch, Rancho Mission Viejo, Laguna Beach, Aliso Viejo and now San Clemente.

"We've built our reputation on honest, professional service over nearly two decades in business," added Todd. "Expanding our reach to San Clemente allows us to bring that same level of service to a new community while maintaining the personalized attention our customers expect."

The company accepts extended warranties and offers financing options to make automotive maintenance more accessible. Their technicians perform factory maintenance schedules for all major automotive brands, ensuring warranty compliance without requiring dealership visits.

West Coast Tire & Services operates as a full-service automotive center providing everything from routine oil changes and tire rotations to complex engine rebuilds and transmission services. The company combines the technical capabilities and certifications of a dealership service department with the personalized service and competitive pricing of an independent shop. Their GoodYear certification provides customers with national programs and quality assurance standards while supporting a locally-owned business that has served South Orange County for nearly twenty years.
