

Soulmutts Toronto Expands Specialised Dog Boarding Services

October 03, 2025

TORONTO, ON - October 03, 2025 -
Soulmutts Toronto has expanded its boarding services to include specialised care programs designed for holiday periods, emergency situations, and senior dogs. The downtown Toronto dog care facility now offers tailored boarding solutions that address the diverse needs of pet owners throughout the city.

The expanded services build upon the company's 17-year foundation in professional dog care. Holiday dog boarding provides extended care during peak travel seasons, while emergency boarding accommodates unexpected situations requiring immediate placement. The senior dog program offers age-appropriate care with modified activity levels and specialised attention for older canines.

"We recognised that different circumstances require different approaches to dog care," said a representative at Soulmutts Toronto. "Our expanded boarding services ensure that whether families are planning vacation travel, facing unexpected emergencies, or caring for ageing dogs, they have access to professional care that meets their specific needs."

The facility operates from its Leslieville location, which features 4,500 square feet of indoor play space and the largest private outdoor dog play area in downtown Toronto. All boarding services include access to custom-built facilities with multiple play zones, professional-grade HEPA air filtration systems, and individual feeding suites designed to accommodate dogs with varying requirements.

Senior dog boarding incorporates adjusted socialisation protocols and quieter rest areas suitable for older dogs. The program addresses the specific needs of ageing canines through modified exercise routines and individualised attention from staff trained in senior dog care. Dogs in the senior program have access to separate play areas that allow for reduced activity levels while maintaining social interaction with compatible pack members.

Emergency boarding maintains availability throughout the year, providing immediate placement options for pet owners facing urgent situations. The service operates on a walk-in basis when capacity allows, with staff available to conduct rapid assessments for dogs requiring immediate care. Emergency placements follow the same safety and socialisation protocols as standard boarding while accommodating the compressed timeline of urgent situations.

Holiday boarding accommodates extended stays during peak travel periods with flexible drop-off and pick-up scheduling. The service addresses increased demand during major holidays and vacation seasons, allowing families to travel with confidence knowing their dogs receive consistent care. Extended stay options include daily activity reports and photo updates for owners travelling domestically or internationally.

Soulmutts Toronto operates 365 days per year with services supported by full-time professional pack leaders. The staff consists of trained professionals who provide individualised attention to each dog based on temperament, age, and socialisation level. Pack leaders maintain consistent schedules and form integral parts of daily operations, ensuring continuity of care across all service offerings.

Sleeping arrangements for boarding dogs include multiple tiers ranging from social group areas to semi-private accommodations and fully private suites. The feeding system utilises a custom-built room with individual spaces, ensuring each dog receives complete meals without interference from other animals. This system allows staff to monitor individual food intake and dietary requirements across all boarding guests.

Transportation to and from the facility is available through the Toronto dog shuttle service, which utilises customised Mercedes-Benz Sprinters equipped for animal transport. The vehicles are outfitted by the same provider that supplies SPCA transportation.

New clients undergo a complimentary Trial Assessment process before booking services. The assessment

introduces dogs to the facility environment and evaluates socialisation compatibility with existing pack members. All dogs must maintain current vaccinations and demonstrate non-aggressive behaviour to participate in boarding programs.

The company has garnered over 400 online reviews as a leading dog walking provider, reflecting its standing within the Toronto pet care industry.

Additional information about the expanded boarding services is available through Soulmutts Toronto. Pet owners can access service booking and facility details through Soulmutts Dog Shuttle Service in Toronto.
